Bethany College is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges and by the American Association of Bible Colleges.

Bethany College is endorsed by the Department of Education of the General Council of the Assemblies of God, Springfield, Missouri, and is owned and operated by the Assemblies of God, Northern California and Nevada District Council, Scotts Valley, California.

Information in this catalog, as in other informational literature issued by the College, is subject to change without notice and does not constitute a contract between Bethany College and a student or applicant for admission.

Title IX
Bethany College does not discriminate on the basis of race, color, national, or ethnic origin, or handicap in its admissions policies. Further, it is the policy of the College not to discriminate on the basis of sex, race, color, national or ethnic origin, or handicap in the administration of its educational programs, including employment, scholarship and loan programs, and athletic and other college-administered programs and activities. Inquiries regarding Bethany's policy and responsibilities should be addressed to the Vice President for Administration and Operations.

Description of Courses

How to Read Course Listings

Course number and title

BL 1008. Greek 2 (3)

Inter-clause relationships will be studied through syntax of subordinate clauses. The bearing of semantics on exegesis will occupy a significant portion of this class. Review of verb conjugation and case, voice, tense, and mood syntax will be given, as well as continued vocabulary building. (Prerequisite: BL 100A)

Spring, Even Years

List of prerequisites (if any)

Time when course is offered

(TBA = To Be Announced)

Division of Biblical & Theological Studies

Major: Biblical & Theological Studies, Pre-Seminary

Division Objectives and Purposes

The division seeks to:

- Enable the student to gain a thorough grasp of certain key books of the Bible and an understanding of the background, structure, content, and spiritual message of the Bible as a whole.
- Encourage a firm conviction concerning the divine inspiration of the Scriptures, a commitment to the authority of the Bible, and thus to study and interpret the
Book according to proper principles of exegesis, to understand and believe its teachings, to obey and practice its precepts, and to share and impart its truths.

- **Enlighten** the student with respect to the historical development of theological thought and then to encourage the construction of a consistent, well-reasoned and honest theology within the framework of evangelical Pentecostal orthodoxy, in a personal quest for truth.

- **Enrich** with a broad background of secular studies, coupled with biblical languages, that student who has a view toward later enrollment in a reputable graduate school or seminary.

- **Ensure** that the student will gain a knowledge of the thought of pivotal thinkers in the development of Western philosophy, acquire skill in conceptual analysis, and demonstrate the ability to express clearly and consistently an independent opinion.

- **Integrate** the student's faith and learning as evidenced by being able to relate biblical principles to secular knowledge and vice versa, and share its implications for the whole person in the totality of life.

**Course Objectives and Purposes—The Biblical Studies Core**

The biblical studies core underscores the basic objectives and purposes of the College. It serves the purpose of exposing each student to biblical organization and content, providing an understanding of evangelical biblical interpretation, the history of the expansion of the church, the development of Christian doctrine, and an understanding of evangelical theology.

The Pentecostal commitment of Bethany College and the Biblical Studies Division is reflected in the five foundation courses required for graduation, each of which includes significant attention to appropriate and specific Pentecostal themes and issues.

**Biblical Studies Core Requirements — 30 Units**

Foundation Core — 15 Units

An additional 15 units of biblically-related study is required, courses to be taken from no less than three of the above areas of biblical study, or from approved cross-disciplinary courses. (No more than 6 units of upper division biblical studies core courses may be from approved cross-disciplinary courses.)

* Biblical studies core for the Church Leadership and Christian Education majors—see Church Leadership requirements.

**Biblical & Theological Studies Major**

Designed for the student who wishes to focus study on Scripture and related subjects, the Biblical and Theological Studies major provides the opportunity to take 74 units of credit in these subjects, with special attention to one of eight areas of emphasis. While this is not a program leading to ministerial credentials with the Assemblies of God, it is well suited for anyone wishing to be involved in lay leadership of a congregation, planning to pursue graduate study, or enriching personal understanding of Christianity.
Bible

BI 105. Apocalyptic Literature (3)
This is a study of Daniel and Revelation. An analytical study of Daniel is made in connection with its historical setting and prophetic prediction. The prophecies of the Revelation are studied in detail and comparisons are made with predictions of Daniel. (This course counts for either Old Testament or New Testament upper division credit.) Yearly

BI 199. Guided Research in Biblical Literature (1-3)
The student will do individually guided research in areas of interest to the student. Hours and approval by arrangement with the division chair. Enrollment is limited to juniors and seniors. TBA

Biblical Languages

BL 10A. Greek 1 (4)
This course introduces students to phonetics and morphology of New Testament Greek. A limited vocabulary will be learned.

BL 10B. Greek 1 (4)
The morphology of New Testament Greek will be covered and basic syntax will be introduced. Extensive reading in the Greek NT is the core of the course. A vocabulary consisting of all words occurring forty or more times in the New Testament will be learned. (Prerequisite: BL 10A)

BL 197. Practicum in Biblical Language (1-3)
An upper division student will work on a specified Greek or Hebrew language project, applying previously learned skills, under the direct supervision of the instructor.

BL 198. Directed Reading/Research (1-3)
Individual, directed study in some area related to biblical language, to be arranged with the instructor.

Church History

CH 1. Church History (3)
The history of the Christian Church will be studied according to the four major periods: Early Church, Medieval Church, Modern Church, and Contemporary Church, with consideration of the expansion, movements and leaders, councils, creeds, doctrines, societal dynamics, and each period. (Prerequisite for all other Church History courses)

CH 105. History of Christian Doctrine (3)
A study of the development of doctrine in one period of the church's history: Pre-Nicene, Post-Nicene, Medieval, Reformation, Post-Reformation, Modern. TBA

CH 110. Contemporary Theology (3)
A study of present day theological movements, including Romanism, liberal and evangelical Protestantism, neo-orthodoxy, and Pentecostalism. (Prerequisite: two semesters of systematic theology)

CH 198. Guided Research in Church History (1-3)
The student will do individually guided research in areas of interest to the student. Hours and approval by arrangement with the division chairman. Enrollment is limited to juniors and seniors.

Interpretational Skills

IS 1. Interpretational Skills (3)
Skills for biblical study will be developed according to frameworks: inductive study, literary genres, interpretation and the individual, interpretation and the Holy Spirit. (Prerequisite for all other Interpretational Skills courses)

IS 105. Hermeneutics (4)
A study of the science and laws of biblical exegesis and interpretation. The principles, methods, and rules by which a true and exact meaning of the Scriptures may be ascertained are established and classified.

IS 120. Greek Exegesis (1-2)
This course will consist of a exegesis of selected passages from the Greek New Testament. The objectives of the course are to provide a bridge for the student from study of language to interpretation of texts. It will also serve to keep linguistic tools current for students who complete their language studies in their sophomore or junior year. It will be conducted in seminar style, assuming a collegial relationship between professor and student. The student may register for one or two credits and requirements will be adjusted accordingly. It fulfills upper division electives in the Interpretational Skills area of the Biblical Studies Core. (Prerequisite: BL 100B)

IS 125. Hebrew Exegesis (1-2)
This course is the Hebrew counterpart of IS 120 Greek Exegesis, with the same objectives applied to the Hebrew Old Testament. (Prerequisite: BL 50B)

IS 198. Guided Research (1-3)
Individual, directed study in some area related to Interpretational Skills, to be arranged with the instructor.

New Testament

NT 1. New Testament (3)
Four frameworks will be utilized in the study of the New Testament, in order to provide a sound grasp of its message: socio-historical, literary, canonical, theological, with emphasis on the emergence of the church. (Prerequisite for all other New Testament courses)

NT 105. The Life and Teachings of Jesus (3)
An analysis is made of the gospel materials with a view to establishing a life of Christ. Special emphasis is given to the teachings of Jesus in his historical and contemporary contexts.

NT 109. Acts (3)
A comprehensive study of the origin and nature of Apostolic Christianity, as a Jewish community, through its early development beyond its Jewish background. Special attention will be given to the role of the Holy Spirit in this process.

NT 115. The Life and Literature of Paul (3)
A study of the life of Paul, his literature (epistles), and his thought (theology) of the Apostle Paul within its historical and cultural setting. Concentration is given to Paul's masterpiece (Romans), examining its content, structure, and contemporary application.
NT 120. Corinthians and Thessalonians (3)
An intensive study of these four epistles with consideration of Paul’s hope of the return of Christ, his treatment of church problems, and his discipline. Along with an exegesis of the books, their devotional and spiritual values are stressed. Yearly

NT 125. Prison Epistles (3)
This course includes Paul’s prison epistles, consisting of Galatians, Ephesians, Philippians, and Philemon. These four Pauline works are given careful and thorough investigation. Yearly

NT 130. Hebrews and General Epistles (3)
Hebrews consists of a detailed study of the fulfillment of Old Testament types and institutions in the person and work of Christ. The distinctive message and content of selected general epistles are carefully considered, including James and the two epistles of Peter. Yearly

NT 198. Guided Research in New Testament Literature (1-3)
The student will do individually guided research in areas of interest to the student. Hours and approval by arrangement with the division chair. Enrollment is limited to juniors and seniors. TBA

Old Testament
OT 1. Old Testament (3)
Four frameworks will be utilized in the study of the Old Testament, in order to provide a sound grasp of its message: historical, literary, canonical, theological, with emphasis on the Spirit of the Lord. (Prerequisite for all other Old Testament courses) Each Semester

OT 105. Hebrew History 1 (3)
This course covers Creation through the book of Judges. Yearly

OT 110. Hebrew History 2 (3)
This course covers the Old Testament from the monarchy through post-exilic times. Yearly

OT 115. The Major Prophets (3)
An introductory study of biblical prophecy with a systematic investigation of the three major prophets: Isaiah, Jeremiah and Ezekiel. Consideration is given to historical backgrounds and the contributions of each prophet to developments in Old Testament thought. Yearly

OT 120. The Minor Prophets (3)
The minor prophets are each considered and expounded in the light of their distinctive messages, time and place of ministry, and circumstances of writing. Yearly

OT 125. Poetic Literature (3)
An introduction to the character of Hebrew poetry prepares the student for the study of the five great Old Testament poetic writings, and investigation of Old Testament wisdom as done for the student of the three Old Testament wisdom books. While each writing is studied in its historical setting, attention is also given to the spiritual and moral lessons which apply to contemporary society. Yearly

OT 198. Guided Research in Old Testament Literature (1-3)
The student will do individually guided research in areas of interest to the student. Hours and approval by arrangement with the division chair. Enrollment is limited to juniors and seniors. TBA

Philosophy & Apologetics
Ph 6. Philosophical Ideas (3)
This introductory course surveys the basic problems, concepts, and methods related to ethical, social, and political thought in the West. Yearly

Ph 110. History of Philosophy (3)
This course is an examination of the major philosophical systems and personalities from ancient times to the present, with a focus on their views of ontology, epistemology, and axiology. Yearly

Ph 120. Contemporary Ethical Issues (3)
This is a seminar offered to qualified upper-division students. Particular emphasis is placed upon Christian ethical principles and their application to personal and social problems. (Prerequisite: one course in philosophy or permission of the professor) Alternate Years

Ph 132. Seminar in World Religions (3)
A study of the great ethnic religions, including Islam, Hinduism, and Buddhism, as well as the institutions and phenomenology of animism. The course includes an evaluation of their respective value systems. TBA

Ap 115. Cults (3)
A study of modern heresies and cults professing to be Christian, and methods of dealing scripturally with them. (Prerequisite: two semesters of systematic theology) TBA

Ap 130. Apologetics Seminar (3)
The object of this course is the establishment and deepening of an intelligent faith in the Christian religion and the Bible. Objections to biblical faith by skeptics, agnostics, and infidels are considered; and an attempt is made to resolve alleged Bible discrepancies. Emphasis is also placed upon the reasonableness of supernaturalism. The conservative viewpoint is maintained throughout. TBA

ST 1. Systematic Theology (3)
Selected basic and relevant doctrines of Christendom will be investigated according to the four major theological areas of the Godhead, God the Father, God the Son, and God the Holy Spirit. (Prerequisite for all other Systematic Theology classes; prerequisite: sophomore standing) Each Semester

ST 105. The Godhead and God the Father (3)
This course focuses the study of systematic theology upon the areas of the Godhead, including knowledge of God, nature of God, and Trinity, and God the Father, including the creation of man and God's providence. Yearly

ST 110. God the Son (3)
This course continues the study of ST 105, discussing man's need of a Mediator in consequence of the fall, and the personal accomplishment of that need through the life and work of Christ. Yearly

ST 115. God the Holy Spirit (3)
Continuing the study of ST 110, this course covers the person and work of the Holy Spirit in applying to individual lives the benefits of Christ's work, the establishment of a community of the redeemed, and the culmination of God's redemptive plan. Yearly

ST 198. Guided Research in Systematic Theology (1-3)
The student will do individually guided research in areas of interest to the student. Hours and approval by arrangement with the division chair. Enrollment is limited to juniors and seniors. TBA
Division of Church Ministries

Majors: Christian Education, Church Leadership, General Ministries, Missions

DIVISIONAL OBJECTIVES & PURPOSES
The Division of Church Ministries offers programs in several areas of professional ministries, including pastoral ministry, missions, and Christian education. The specific emphases within the Church Leadership major provide the skills and theoretical foundation for applied ministry. In addition, strong emphasis is placed on practical experience and opportunities for applying classroom study.

GENERAL MINISTRIES
This program is designed for either the student with no college experience or one with transfer units. The emphasis is on flexibility for the student, whereby the student may choose a particular interest area.

Requirements for the General Ministries Degree

General Ministries 30 Units

NT  1  New Testament
OT  1  Old Testament
IS  1  Interpretational Skills
ST  1  Systematic Theology
CH  1  Church History

Any 15 additional hours in Bible and Theology Major Core Studies 41 hours

PT  105  Assemblies of God Polity
CE  105  Hermeneutics (4)
CE  140  Historical Methodology
CT  135  Homiletics

Any combination of 28 units from Pastoral Theology, Christian Education, Internship, Bible, Theology, or Missions.
Total (both Biblical Studies & Core) 71 units

* This Degree Plan is only open to the External Degree Program Students.
** Completion of this degree will not automatically satisfy the educational requirements for credentialing with the Assemblies of God, Northern California and Nevada District Council.

CHURCH LEADERSHIP MAJOR
The preparation of those who will engage in some form of professional ministry is the particular purpose of this major. The understanding and skills essential to the minister are drawn from several divisions to develop skills in communication, counseling, and church management. In addition, students may specialize in a given area of church ministry.

Emphasis Area (6-12 units)

Choose two classes as designated in the catalog in an area of emphasis from one of the following areas.

- Biblical Language (BL 10A, BL 10B, BL 15A, BL 50B)
- Christian Education (Ps 102, 150, CE 131)
- Church History (Hi 105A, 150, CH 105)
- Counseling (Ps 122, Ps 144, Ps 150, Ps 180)
- Drama (Dr 160, plus any other units of Drama)
- Evangelism/Church Growth (PT 100, Mi 100A, Mi 136)
- Hispanic Ministries (La La, La 146, An 149)
- Intercultural Relations (Mi 100A, Mi 120, An 110)
- Missions (Mi 100A, 100R, 120, 136, An 110)
- Missions (Mi 100A, 100R, 120, 136, An 110)
- Music (Mu La, Mu 1A, Mi 2A, Mu 2A)
- Pastoral Ministries (PT 130, 130, 139, 140)
- Preaching (PT 132, 140, 160, Sp 110)
- Youth Ministries (CE 12, CE 121, Ps 112)

Internship (6-12 units)

PT 190  Ministerial Internship 12
or PT 191  Ministerial Internship *6
* If PT 191 Ministerial Internship is taken, student must complete a total of 12 units in the emphasis area.

### Youth Ministries

Students who anticipate working with youth have more than one option available to them. Consideration should be given to preparation for general pastoral ministry as well as youth emphasis by taking the Church Leadership major with a concentration of recommended youth courses. For students who wish a more specialized preparation, the sequence of courses offered in the context of the Christian Education major offers immediate involvement in church youth ministries.

### Missions

Students who wish to prepare for home or foreign missions are encouraged also to consider the Church Leadership major with a specialization in Intercultural Relations or the Intercultural Relations major. (Refer to the Social Science section.) Appointments to missionary work are given by the Foreign Missions Department of the Assemblies of God or other missions agencies and not by the College.

### The Major in Christian Education

The major in Christian Education is concerned with evangelism and education. These two emphases are viewed as being inseparable, deriving from the biblical commands to evangelize and disciple Christians. In this sense, much of what takes place in the ministry of the local church must be considered Christian education. This major is particularly suited for persons preparing for youth ministries, given its emphasis on development of the church instructional, counseling and activities programs, study of adolescent psychology, and the Christian education of youth, and evangelism.

Internship requirements may be met in a variety of formats. Students must have approval of the advisor prior to enrolling.

Please see Biblical Studies Core (30 units) as required of Church Leadership majors. With the Biblical Studies Core of 40 units, students will have satisfied the educational requirements for credentialed with the Assemblies of God, Northern California and Nevada District Council. Students who do not wish to apply for these credentials may choose to complete the regular 30-unit Biblical Studies Core.

### Center for Hispanic Ministries

The Center for Hispanic Ministries (CHM) coordinates specialized studies designed to prepare students for ministry in Hispanic cultures.
The program provides a point of identification for students of Hispanic background to relate positively to their own cultural distinctives, and to integrate fully into the community formed by faculty, staff, and student body of Bethany College.

The CHM also provides a visible forum to enhance non-Hispanic students’ appreciation for the unique abilities and rich heritage represented by the Hispanic people and churches, which constitute a large and rapidly growing segment of the Assemblies of God.

The Pacific Latin American District of the Assemblies of God endorses the Center for Hispanic Ministries at Bethany College.

**CHMUN XMINT CERIFATITE**
A program of 64 units from Bible, Theology, General Education, and Church Ministries is offered. This certificate is intended to satisfy the education requirements for ministerial credentialing through the Assemblies of God, Northern California and Nevada District Council, but the College does recommend the Bachelor of Arts degree with the Church Leadership major as the better option for ministerial training.

**ASSEMBLIES OF GOD MINISTERIAL CREDENTIALS**
Students who complete the B.A. degree with a Church Leadership, Christian Education, or Missions major will have concurrently satisfied the educational requirements for credentialing with the Assemblies of God, Northern California and Nevada District Council.

Since credentials are issued by the Assemblies of God, Northern California and Nevada District Council independently of the College, each student must take responsibility for making certain that he or she satisfies all personal requirements. For further details on credentialing, contact the District Secretary/Treasurer’s office at the District Office. The Church Ministries Chair will advise students with questions or problems.

**COUSE OFERINGS**
(DIVISION OF CHURCH MINISTRIES)

**CHRISTIAN EDUCATION**

**CE 1. Introduction to Christian Education (3)**
A study of the church as an educational agency through the interrelated efforts of its various departments. Attention is given to the history, principles, and administration of the Sunday school. Each Semester

**CE 12. Introduction to Youth Ministries (3)**
A course to present the qualifications and functions of the minister to youth. Includes the objectives of personal and spiritual development in young Christians and suitable approaches to an effective church youth program. Fall

**CE 121. Youth Ministries Leadership (3)**
A course designed to further equip the student who is seriously considering ministry to youth. Emphasis will be given to practical "hands-on" experience with actual ministry to youth in a local church being required during the course. Various topics related to youth ministry will be discussed, as well as high school and college campus ministries. (Prerequisite: CE 1 and CE 12) Yearly

**CE 125. Family Life Education (3)**
A study of the importance, nature, and scope of family ministry in today's church community. Emphasis is placed on the development of approaches through Christian education to enhance the total well-being of Christian families, including a section on single parenting. This includes the practical aspects of planning a church family ministry program. (Prerequisite: CE 1) Alternate Years

**CE 131. Leadership in Christian Education (3)**
An integrating seminar for advanced students, particularly those who prepare for the vocation of director of Christian education. Specific areas covered are the recruitment and training of workers, supervision of the learning situation, promotional work, and relationships with the pastor and the local church. (Prerequisite: CE 1) Alternate Years

**CE 133. Christian Education of Adults (3)**
This course concerns itself with the ministry of the church to the characteristic needs of adults and their importance to church and society, including single ministry. Considered are topics such as curriculum, methods, materials, equipment, program planning, grading, and in general the organization of the agencies of the church for this ministry. (Prerequisite: CE 1) Alternate Years

**CE 140. Instructional Methodology (3)**
Introduction to the principles of pedagogy and the various forms and structures of classroom instruction and curriculum. Opportunity is given for students to teach before the class for suggestion and criticism. Instruction concerning audio-visual equipment use is also provided. (Prerequisites: CE 1 and PT 150) Yearly

**CE 141. Contemporary Issues and Programs in Education (2)**
The issues and practices in the following areas of education will be explored: A. The Education of the Socially and Culturally Different. B. Student Welfare, School Supervision and Classroom Management. C. School Finances, Policies and Community Resources. Yearly
CE 150. Christian Education of Children (3)
This course is concerned with every avenue of sharing the Christian message and building the lives of boys and girls. Age level characteristics, objectives, methods, and implementation of these in the various agencies for reaching children will be discussed in detail. (Prerequisite: CE 1) Alternate Years

CE 153. The Art of Storytelling (2)
Methods of storytelling and materials suggested. Practical methods are used so that every student has opportunity to put theories into practice. Attention is given to off-campus, "field" audience opportunities. (Prerequisite: CE 1) Alternate Years

CE 191. Christian Education Internship (6)
This course involves field work in Christian education under supervision in a local church. Alternate Years

CE 196. Seminar in Christian Education (1-3)
Consideration of current trends in Christian education. Alternate Years

CE 197. Practicum in Christian Education (1-3)
This course is designed for upper-division students who wish to do projects or field work with approval of the division chair. (Prerequisites: CE 1) Alternate Years

CE 199. Directed Readings in Christian Education (1-3)
This course allows for intensive reading and research in the literature in areas of Christian education with the approval of the division chair. (Prerequisite: CE 1) Alternate Years

Hispanic Ministries

HM 1A. Introduction to Spanish (3)
Vocabulary, pronunciation, grammar, conversation, and some reading. Spring

HM 1B. Continuing Spanish (3)
Continuation of skill development in vocabulary, grammar, conversation and reading. Spring

HM 145. Culture Area Studies: Introduction to Hispanic Culture (3)
An analysis of Hispanic culture in the United States and Latin America: Worldview, culture, acculturation, demography, historical background and future projections. Particular attention is given to developing the ability of both Hispanic and Non-Hispanics to relate effectively in both cultural contexts. Spring

HM 146. Hispanic Church in Historical Perspective (3)
For description see HM 146. Spring

HM 162. Geography and History of Latin America (3)
For description see HM 162. Alternate Years

HM 197. Practicum (1-3)
Direct field experience in a Hispanic setting. General supervision by adviser. May be repeated for credit. Each semester as demand requires

Missions

Mi 11. World Missions Today (3)
A panoramic survey is given of the worldwide spread of the Gospel today. The course looks at what is happening now in various areas such as Europe, Latin America, Africa and Asia, and among different people groups such as Moslems and Marists. This study encourages a sense of involvement in up-to-the-minute developments, and examines the needs, challenges and opportunities of world missions in today's rapidly changing world. Alternate Years

Mi 100A. Theology of Mission and Evangelism (3)
Introduction to the biblical basis of Christian missiology with special attention to the operation of the Trinity; the missionary call, methods and motives; and problems of syncretism, contextualization, nationalism, and "theology of liberation." Alternate Years

Mi 100B. Church Mission and Church Growth (3)
Study of theological, sociological, and statistical dimensions of church growth; church planting and congregational expansion in the United States and overseas. Assesses strengths and weaknesses of the church growth movement; and highlights the work of the Holy Spirit and Pentecostal growth in the non-Western World. Alternate Years

Mi 120. Intercultural Communications (3)
For description see Mi 120. Alternate Years

Mi 125. History of World Missions (3)
For description see Mi 125. Alternate Years

Mi 136. Urban Evangelism (3)
Sociological study of urbanization and its significance for mission, with inquiry into the problems and opportunities for evangelism in the United States and overseas. Alternate Years

Mi 190A-B. Missionary Internship (1-3)
Bethany College annually participates in the missionary internship program of the Foreign Missions Department of the Assembly of God. Some students receive summer appointment under their own home or foreign mission boards. Advance approval from the division chair is required. Alternate Years

Mi 196. Seminar in Missions (1-3)
Consideration of current topics in Missions. Alternate Years

Mi 199A-B. Directed Readings (1-3)
Directed reading and research for upper division students who wish to make special studies in a designated area pertaining to missions. Alternate Years

Practical & Pastoral Theology

PT 1. Introduction to Christian Life and Ministry (0-1)
An introduction to three major areas of personal preparation for life; the Christian's personal development and commitments as based on biblical principles, God's world and one's place in it, and contemporary forms of ministry. Fall

PT 10. Evangelism (3)
As a basic preparation for personal soul winning, the student engages in scripture memorization. This is elaborated into a definite program for the church in community evangelism, visitation, and Sunday school enrichment campaigns. Actual plans are presented so that the entire church may be put to work. Topics considered include: motives and methods of modern evangelism including the biblical basis, the role of the pastor and the church, special evangelistic efforts and audiences, and great evangelists and evangelistic sermons of the present and recent past. Alternate Years

PT 102. Argumentation and Persuasion (3)
Theory and principles of persuasion and argumentation, including analysis of lines of argumentation found in contemporary social, political, and religious public addresses. Class presentation of speeches is required. (Prerequisite: SP 2A or instructor consent.) Fall

PT 105. Assemblies of God Polity (3)
Emphasis will be given to the ecclesiastical structure of the Assemblies of God, especially in relation to District Council organization. The history of the Assemblies of God will be studied, as well as the Constitution and its by-laws, and fundamental doctrines. Part of the course will give consideration to the use of parliamentary law in church structure. Alternate Years

PT 110. Oral Interpretation (3)
Analysis and interpretation of varied types of prose, poetry, and biological literature. Individual and group readings before in-class and out-of-class audiences. (Prerequisite: SP 2A.) Alternate Years

PT 112. Pastoral Preaching (3)
Advanced studies in homiletics particularly concerned with the special aspects of pastoral preaching. Considerable attention is given to sermons for special occasions. (Prerequisite: PT 155.) Alternate Years
PT 130. Pastoral Problems Seminar (3)
This course emphasizes the seminar-discussion approach to current and relevant problems confronting the pastor. Featured will be guest speakers and resource persons who are recognized authorities in various areas of the ministry and related fields. Yearly

PT 138. Pastoral Ministries (3)
An overview of pastoral requisites: character, responsibilities, roles. Emphasis is given to distinguishing biblical patterns and current cultural expectations of the church. Yearly

PT 139. Pastoral Ministries (3)
This part of the seminar will be a study of New Testament "Koinonia" with an emphasis on practice and structuring of commitment groups for the local church. The last part will emphasize visitation/evangelism in homes with a practical in that area. Yearly

PT 140. Pastoral Ministries (3)
The concepts of worship and biblical instruction are emphasized in this class. The ideas of "receiving God's voice" and communicating His voice in a practical manner to the community—Christian and non-Christian—are dealt with. Yearly

PT 145. Pastoral Counseling (3)
This is an advanced course in counseling designed specifically for the pastor, acquainting him with various methodologies and techniques in his role as counselor. Yearly

PT 155. Homiletics (3)
For description see Division of Humanities and Fine Arts, Sp. 155. (Prerequisite: Sp 2A.) Each Semester

PT 156. Expository Preaching (3)
This course is designed to be an advanced investigation into the methods of building, organizing, and delivering expository sermons. The student is encouraged both to analyze selected messages of the great expository preachers of the past and present and to prepare several original sermons (manuscript and classroom presentation) for evaluation. (Prerequisite: PT 155) Yearly

PT 190. Ministerial Internship (12)
This program functions as a "laboratory experience" within the framework of a local church, including the participation of supervisory personnel and an extensive evaluation system. It is a requirement for all Church Leadership majors. Previous Christian service and ministry should not be considered as a basis for a waiver of internship, but rather viewed as an enhancement of a more mature internship experience. The course should be taken during the fall, spring, or summer semester of the junior year, or the fall of the senior year. Preparation should be made for the possibility of an out-of-town assignment. This course is offered on a credit/no credit basis. Each Semester

PT 191. Ministerial Internship (6)
For description see PT 190. Consult division chair. Each Semester

PT 196. Seminar in Practical Theology (1-3)
Consideration of current topics in Practics. TBA Each Semester

PT 197. Practicum (1-3)
This elective course involves field work and performance in the area of specialization, emphasizing actual experience in that program of a local church. Each Semester

Division of Education & Psychology

Majors: Early Childhood Education, Integrated Studies, Intercultural Child Development, Psychology

Divisional Objectives & Purposes
This division seeks to fulfill a critical portion of Bethany's mission of providing training in ministry-related fields. Each of the division's areas of emphasis target important aspects of universal human need such as health, recovery, child development, and education. The division's programs, psychology, child development, addiction studies, and teacher training, each endeavor to balance depth in the areas of technique and methodology with breadth resulting from philosophical, cultural, and spiritual insight. The goal for each student emerging from these programs is an attitude of ardent truth-seeking and a love for leading others, child or adult, in those same paths.

The Major in Psychology
Psychology offers a student major in Bethany because there is a broad base of interest in the behavioral sciences and because it helps fulfill the mission of preparing students in a ministry-related career option. Studies in psychology require academic excellence. Successfully completed, such studies are transferable to most other institutions of higher education.

The major in psychology is usually seen as leading to graduate level studies in either research or applied areas. The major is especially recommended for those who contemplate further study or careers in psychology, counseling, remedial and compensatory education, and community mental health. In addition, a strong psychology background is excellent preparation for many areas of Christian ministry.

Integrated Studies Major
The Integrated Studies major is designed especially for students entering the teacher certification program and desiring to teach in kindergarten through eighth grade. As a diversified major, it includes courses offered in several academic areas and fulfills many of the general studies requirements as well as the requirements for a major. Counseling of Integrated Studies majors is provided by the members of the education faculty. The present program is approved by the California Commission of Teacher Credentialing as of July, 1991.
Math
General Studies: Intuitive Approach to Geometry (3), Math Concepts (3), Statistics (3)
Major: Introduction to Computers (3)

Science
General Studies: Physical and Earth Sciences (3), General Biology (with lab) (4)
Major: Integrated Thematic Science (3)

Social Science/History
General Studies: History of Civilization to 1648 (3), History of Civilization: 1648—Present (3), History of the United States to 1865 (3), Introduction to Life and Ministry (6)
Major: History of the United States since 1865 (3), Human Geography (3), Elective (from designated list) (3)

Human Development
General Studies: General Psychology (3)
Major: Child Growth and Development (3), Adolescent Psychology (3), Principles and Practices to Enhance Self-Esteem (3)

Physical Education
General Studies: Choose two courses from: Introduction to Base/baeball/Softball (2), Introduction to Volleyball/Basketball (2), Introduction to Soccer/Football (2), Introduction to Physical Conditioning (2)
Major: Nutrition and Health Needs of Children (2), Introduction to Growth and Motor Development (2)

Visual/Performing Arts
General Studies: Choose one from: Drama Workshop (3), Music Literature (3), History and Appreciation of Art (3), Theory of Drama (3)
Major: Choose one from: History and Appreciation of Art (3), Principles and Elements of Art (3), Sketching and Drawing (3), Water Colors (3), Oil Painting (3), Creative Projects (1-3)
Choose one from: Music Literature (3), Music History A or B (3), Elementary School Music (2)
Choose one from: Drama Workshop (3), Play Production (2), Mime (3), Theory of Drama (3), Creative Projects in Drama (1-2), Debate and Discussion (3), The Art of Storytelling (2), Creative Projects in Speech (1, 2)

Language
General Studies: Written and Oral Communication (3), Introduction to Literature (3)
Major: Children's Literature (3), Ethnic Literature (3), Advanced Composition (3), Foreign Language (6 units), Literature elective (from designated list) (3)

Humanities
Major: Introduction to the Humanities (3), Seminar in Education (1), Elective (from designated list) (3)

Area of Subject Matter Concentration
12 Units
See degree plan sheets for additional course detail for each area: Human Development, Psychology, Social Science, Music, History, Teaching English as a Second Language, Literature, Drama, and Intercultural Child Development.

Biblical Studies Core
General Studies 6 units of approved Bible cross-disciplinary courses

24 units of Bible

Present California requirements are subsumed under the Ryan Act, or the Teacher Preparation and Licensing Law of 1979. The Legislation provides for a five-year program leading to the clear teaching credential. The Ryan Act designates requirements of teacher education programs and delineates types of credentials needed for teachers of pupils in grades K-12. Bethany's program has been approved by the Commission on Teacher Credentialing (CTC). The person who anticipates teaching at the secondary level is advised to take one of the following academic majors offered at Bethany: English, Music, or Social Sciences. The CTC has approved completion of these programs at Bethany as verification of subject matter proficiency, a prerequisite for the Single Subject Credential needed to teach that specific area in California public schools, preschool through grade 12, or in classes for adults. The person who anticipates teaching in elementary schools should choose an Integrated Studies major. This approved subject matter program is a prerequisite required by CTC to teach within self-contained classrooms at any grade level, preschool through grade 12, or in classes for adults.

Preliminary Credential
The Ryan Act outlines two categories of certification relevant to the program at Bethany. These are the Preliminary and Clear Credentials. The student may choose to complete the requirements for a Preliminary Credential within a standard four-year college program and be employed as a teacher at that point. A Preliminary Credential is issued for a period of five years and the requirements for a Clear Credential must be completed during that time. The requirements for a Preliminary credential are as follows:

1. A baccalaureate or higher degree, completed in an accredited institution in an academic program approved by CTC; or a baccalaureate or higher degree completed in an accredited institution and a passing score on an exam in a given academic area approved by CTC.
2. A passing score on the California Basic Educational Skills Test (CBEST).
3. An approved professional preparation sequence of courses. At Bethany the following courses fill that requirement:
4. A full semester (12 units) of full-time supervised student teaching. This is actual teaching experience in a school, supervised by the College supervisor and under the direction of a master teacher from the school in which the student is teaching.
5. Demonstrated competency in U.S. Constitutional principles and provisions.
6. Demonstrated competency in English composition and verbal skills.

CLEAR CREDENTIAL
The person who wishes to complete a Clear Credential may accomplish that without first obtaining a Preliminary. The requirements include all of the above items 1–6 plus:

I. A one unit course in health science that examines the social and physical effects of the abuse of alcohol, narcotics and drugs, use of tobacco, and nutrition.
II. A three unit course dealing with the education of the exceptional child which includes an examination of mainstreaming.
III. A three unit course exploring the uses for computers in education.
IV. A fifth year of study which could include one of the following areas:

A. An approved program of professional preparation that would include items 3, 4, 5, plus 1, II, and III listed above.
B. Subject-matter study that will enhance teaching competence which may or may not lead to an advanced degree. (Assumes completion of 3, 4, 5, and I, II, and III above.)
C. Completion of an approved program for another or specialized credential. (Also assumes completion of 3, 4, 5, and I, II, and III above.)

ADMISSION INTO THE TEACHER PREPARATION PROGRAM
Teacher preparation is a program of professional study in which Bethany certifies that students completing the program have the moral and academic qualifications needed to teach.

In general, an applicant must demonstrate an acceptable foundation before acceptance. These requirements include:

1. Letters of reference verifying moral character and prior relevant experience within the classroom.
2. Overall GPA of 2.50 or 2.75 in the last 60 units of study.
3. §Certification of proficiency in English composition.

Applicants who do not qualify for entrance into the Teacher Preparation Program may still enroll in Education courses, but will not be accepted into the Program until they have fulfilled all requirements listed in the Teacher Education Handbook (re: pages IF.1 and IF.2).§

Applicants should also be advised that a criminal record may preclude the opportunity to teach in California schools. All prior offenses must be disclosed at the time of application. After the applicant demonstrates that all of the above are complete, the Teacher Education Committee will then interview the applicant. § Denial of admission for any reason may be appealed.

Eight units constitute a full course load for students in this post-baccalaureate program.

ADMISSION TO STUDENT TEACHING
Admittance into the Teacher Preparation Program does not necessarily insure admission to student teaching. Student teaching is a privilege granted to the student through the courtesy of the public school district to which he/she is assigned. Prompt and regular attendance and complete cooperation with the master teacher is required. For this reason, the student should not plan to maintain outside employment while student teaching. Since he/she is expected to be in attendance at the assigned school for virtually the entire day, his/her academic load will also be limited that semester. Application for student teaching should be made on forms provided by Bethany’s Department of Education. The Teacher Education Screening Committee will review all applications to determine eligibility for student teaching. Criteria will include:

1. GPA: A cumulative GPA of 2.50 and 3.00 in all professional courses.
2. Courses completed: The student should have passed the National Teachers Examination (NTE) or completed ¾ of a waiver program.
3. An examination of the student’s cumulative personal record will be considered. Evidence of professional attitude and emotional stability are necessary. The state law also requires evidence of the absence of any criminal record. This is done by applying to the State for a Certificate of Clearance. §
4. Passing score on the CBEST.

§ See the Teacher Education Handbook, available from Bethany’s Department of Education, for further details.

CHILD DEVELOPMENT
The program in Child Development has been designed to provide students with a broad base of intercultural studies equipping them to serve as missionaries to and teachers of children of varied cultures. Students are trained as professionals with a combined emphasis on early childhood teaching skills and child development, as well as intercultural studies which includes teaching English as a second language.
Upon completion of the four-year program, students will have been trained cross-culturally to work as children's missionaries and as teachers qualified to meet not only the child's spiritual needs, but also the very basic needs of life which include health, education, and basic nurturing.

Within the Child Development program students may select from three programs of study. These programs will meet the requirements specified by California law to teach in and direct child center programs. The programs consist of:

- A four-year program which offers a B.A. in Intercultural Child Development—includes intercultural training, core child development classes, as well as a 10-week internship at an overseas base.
- A three-year program which offers an A.A. in Child Development—includes intercultural training as well as core child development classes.
- A two-year program which offers an A.A. in Child Development—includes core child development classes.

Education Psychologia
**Course Offerings**
(Division of Education & Psychology)

**Addiction Studies**

AS 101, Introduction to Addictive Behavior Studies (3)
Historical and contemporary issues related to understanding and responding to substance abuse problems will be covered in this introductory course. (Prerequisite: Enrollment in CPAC or instructor's consent.).............Fall

AS 102, Treatment of Addictive Behavior (3)
A study of the patterns of addiction for various sub-groupings of society as well as society as a whole. This course is a survey of current models of prevention and intervention in substance abuse. It is designed to provide a practical understanding of how to help a client arrive at sobriety in both religious and secular programs. (Prerequisite: Enrollment in CPAC or instructor's consent.)..............Spring

AS 110, Sociology of Addictive Behavior (3)
A study of social issues and patterns related to substance abuse, with particular focus on interaction between co-laterals and the dependent person. Family theory, intervention and counseling will be investigated. (Prerequisite: Enrollment in CPAC or instructor's consent.)...............................Fall

AS 120, Physiology and Pharmacology of Addiction (3)
Examines the physiological effects and biochemicals of alcohol and other drugs, especially as in tolerance, withdrawal and addiction patterns. (Prerequisite: Enrollment in CPAC or instructor's consent.).............Spring

AS 130, Human Services (3)
Case management, program development and management, as well as clinical supervision will be studied along with specific case presentation skills such as screening, assessment, crisis intervention and referral. (Prerequisite: Enrollment in CPAC or instructor's consent.).............Spring

AS 140, Professional Treatment Skills (3)
A survey of law, documentation, protocol, ethics, recordkeeping and management issues related to program development and management. (Prerequisite: Enrollment in CPAC or instructor's consent.)..........................Spring

AS 151, Counseling of Addictive Behavior 1 (3)
An introductory course focusing on counseling theories, skills and values, progressing to applied counseling skills for substance abuse and addiction issues. .........................Fall

AS 152, Counseling of Addictive Behavior 2 (3)
An advanced addiction counseling course utilizing role play and lecture to teach individual, group and family counseling skills for addictive behaviors. (Prerequisite: Enrollment in CPAC or instructor's consent.) ..............Spring

AS 174A, Supervised Field Work (3)
Hands on volunteer work in an agency setting with supervision by both agency personnel and faculty. (Prerequisite: Enrollment in CPAC or instructor's consent.).............Fall

AS 174B, Supervised Field Work (3)
Hands on volunteer work in an agency setting with supervision by both agency personnel and faculty. (Prerequisite: Enrollment in CPAC or instructor's consent.).............Spring

**Child Development**

CD 12, Activity Planning and Motor Development (1-2)
This course has been designed to introduce students to the theories and activities related to early development in young children. Practical ideas for developing motor curriculum will be introduced and will be experienced first hand in the ECLC training lab. .......................Fall

CD 35, Introduction to Early Childhood Education (3)
This course provides an overview of a career working with young children. Students are exposed to current issues and trends as well as the historical influences which have molded today's educational thought. Methods and approaches related to the actual learning process of the young child are presented. Students will explore areas of teaching which can be applied to children of any culture. ................Fall

CD 143, Philosophy of Education (1)
This course offers an overview of the Christian world view of education. Students will explore various philosophies and their influence on educational thought today. The course will be presented in seminar format with leaders from the field of Christian Education. ..................Spring

CD 171, Program and Curriculum Development (3)
The course in curriculum development provides an overview of the various components involved in planning a curriculum for young children. Such areas as principles, purpose and theory are discussed. A concurrent lab session allows the student to put into practice the methods learned throughout the course. Lab required. .........................Fall

CD 172, Preschool Administration and Supervision (3)
The course provides an overview of administrative and supervisory programs for young children. Such areas as development of philosophy and curriculum along with establishing the environment are discussed. Students are guided in staff development and working with parents, as well as the day to day management of a child care facility. ..............Spring

CD 173, Sensorial Education (3)
The course in sensorial education covers the theory and use of the five senses as an approach to educating children. These activities are used with young children to develop and refine sensory perception, language, movement, independence and social development. Specifics such as use of sensorial and practical life materials are each presented. ............Spring

CD 174, Child, Parent, Community Relationships (3)
Involvement with parents and the community is key to the successful implementation of any early childhood program. This course presents practical methods for working effectively with parents as well as including them in the educational process. Specifics of working with children and their parents are presented. ..................Spring

CD 175, Nutrition and Health Needs of Children (3)
This course presents the science of proper nutrition and the application of nutritional principles to children. Students are provided the opportunity to evaluate nutritional and health practices for children from birth through adolescence. Cross-cultural health care and safety issues for children, related to societal structures, are integrated throughout course content. ..................Fall

CD 190, Children's Missions Internship (6)
After completion of the core Child Development classes including the supervised field work, the student will be placed at an overseas base to fulfill the I.C.C.D. ten week internship. The student will be responsible to assist and work to establish sound principles of child care in nations around the world. ..............Summer

CD 197, Supervised Field Work (6)
This course may be taken in segments of 1-3 units each. The student will complete the field work in the E.C.L.C. lab school program under the supervision of the preschool director and the I.C.C.D. program director. Throughout the assignment the student will experience first hand the tasks of the teaching in the early childhood setting. Hours and labs are contingent on the number of units taken. ..................Fall, Spring
Ed 10. Reading and Study Skills Tutorial (1)
This course is designed to provide students with an opportunity to receive individual assistance in their college level courses. Course work will be determined on an individual student-need basis. An individual contract will be devised specifying course content and hours. (May be repeated to a maximum of 2 units)................................. Each Semester

Ed 12. Reading and Study Skills (2)
This course is designed to provide students with an opportunity to develop their reading and study skills at a level of competence which will ensure success in college level course work. Study strategies are discussed and applied in both a classroom and laboratory setting. (Lab fee)................................. Each Semester

Ed 103. Teaching of Reading (3)
This course involves a study of various approaches to the teaching of reading. Its intent is to familiarize students with basic principles and techniques of analysis, application and evaluation of strategies for teaching reading in various socio-economic and cultural milieu. The course emphasizes comprehension, phonics and other decoding and encoding skills. Field experiences are provided. Integrated Studies majors in education are required to take this course. ................................................. Fall

Ed 141 Contemporary Issues and Problems in Education (2)
The issues and practices in the following areas of education will be explored:
A. The Education of the Socially and Culturally Different.  
B. Student Welfare.  
C. School Supervision and Classroom Management.  
D. School Finance, Politics and Community Resources.  
E. Public Relations .................................................. Fall

Ed 145. Multicultural Instructional Methods (1)
Students will examine and observe principles of second-language acquisition, and use language teaching strategies and curriculum materials effective for and sensitive to the student from diverse cultural, socioeconomic and linguistic backgrounds .................................. Fall

Ed 160. Education and the Exceptional Child (Mainstreaming) (3)
This course is designed to familiarize students with the characteristics of and educational provisions for all types of exceptional children. Exceptional children include children who exhibit deviations from normal sensory, motor, perceptual, and mental development. The importance of identifying these areas and designing effective mainstreaming instruction for them is also stressed. ................................................. Fall

Ed 170. Curriculum Design (2)
Students develop and demonstrate 29 competencies in the following areas: Instructional objectives, screening, performance, goal and task analysis, subject matter and media selection, performance management and record keeping. This course is designed to allow the student to apply general curriculum design principles to his/her area of expertise in kindergarten through adult levels. Lab required (Prerequisite to Ed 171 & 172) .................. Fall

Ed 171. Applied Teaching Skills in Multiple Subjects (2)
The teacher candidate acquires specific subject matter teaching skills that focus on generic pedagogical methods centered around the "Teacher Effectiveness" research the candidate received in Ed 170. The candidate will interact with subject matter specialists, practicing teachers, and subject matter support networks in an effort to optimize planning, presentation and evaluation of curriculum in Math, Social Science and Language Arts. (Prerequisite: Ed 170) ................................. Fall

Ed 172. Applied Teaching Skills in a Single Subject Area (2)
The teacher candidate will acquire specific subject matter teaching skills that focus on generic pedagogical methods centered around the "Teacher Effectiveness" research the candidate received in Ed 170. The candidate will interact with subject matter specialists, practicing teachers and subject matter support networks in an effort to optimize planning, presentation and evaluation of curriculum in the content area he/she is preparing to teach. (Prerequisite: Ed 170) ......................... Fall

Ed 181. Introduction to Computers (3)
The course is designed to provide an introduction to the uses of microcomputers in education and in society in general. Specifically, students will learn the function of the major components of microcomputer systems and how to use them. The history, mathematics, languages, jargon, and applications of computers will be covered. Examination of the manufacture of hardware and software will take place along with the criteria for the evaluation of both. The course will provide an elementary introduction to programming languages and applications programs. While this course is designed to produce a fair level of general computer literacy, it is also the initial required course in the "Computers in Education" certificate program. Lab fee. ................................................. Each Semester

Ed 182. Programming Microcomputers (3)
This course introduces students to the principles of appropriate computer program design. While the emphasis will be on the development of good programming techniques using the BASIC language, other programming languages will also be briefly discussed. Structured approaches to programming will be emphasized. Machine dependent versions of programming languages will be reviewed. An important aspect of the course will be student development and implementation of approaches to teaching programming to students of their own. ................................. TBA

Ed 183A Instructional Uses of Microcomputers (3)
The emphasis in this course is on the integration of computer usage with sound educational and learning principles. Analysis of one's own teaching strengths and weaknesses (style) and how computers may be used to enhance or compensate for individual teacher differences will be carried out. Strategies for introducing computers into a school or classroom will be discussed. ......................... TBA

Ed 183B. Administrative Uses of Microcomputers (3)
The emphasis in this course is on administrative uses of computers in an educational setting. Analysis of one's own management strengths and weaknesses and how computers may be used to enhance or compensate for individual differences will be carried out. Strategies for introducing computers into a school or classroom will be discussed. Hands on familiarization with specific software packages relevant to administrative tasks will take place. .................................................. TBA

Ed 190A. Student Teaching 1-12
The student teacher works through a highly-structured teaching experience designed to support and put the techniques and theories from the professional training courses into practice. Student teachers are involved in full-time supervised teaching experiences in the public and private schools. Participants will benefit from the college supervisor and master teacher, who will evaluate and coach each student teacher in private conferences. The course is open to a limited number of qualified students. (Prerequisite: completion of 4/5 of an academic major, the professional education sequence and CREST) .................................. Each Semester

Ed 190B. Intern Teaching 3-12
The student teacher is involved in full-time supervised teaching experiences in public schools. The course is open to a limited number of qualified students. (Prerequisite: completion of an academic major and CREST) .................................. Each Semester

Ed 196. Seminar in Education (1-3)
Current topics in the field of education will be presented and discussed. Students will also have the opportunity to do interviews, meet educational practitioners, and observe educational issues in the classroom. Seniors in the Integrated Studies major will also write their senior paper and present it before an interdisciplinary committee for review. .................................................. TBA

Ed 197. Introduction to the Teaching Profession (1)
This course allows the education student to obtain experience in the field. One unit is required before entrance into the Teacher Preparation Program. ................................. Fall
Ma 10. General Mathematics (3)
This course provides a review of arithmetic and practical mathematical application and personal consumer math, followed by an introduction to mathematical relationships and concepts necessary for successful entry into college algebra. Pre-algebraic content includes the discussion of properties of whole numbers, integers, and rational numbers, set theory, exponents, square roots, algebraic expressions, formulas, metric and non-metric measurements, and coordinate geometry. Fall

Ma 11. Elementary Algebra (4 units)
This course briefly reviews arithmetic with integers, fractions, and decimals. It covers linear equations, polynomials, rational expressions, integer exponents, square roots, radical expressions, quadratic equations, and the quadratic formula. (Prerequisite: Ma 10 or equivalent or consent of instructor.) Spring, yearly

Ma 12. Intermediate Algebra (4 units)
This course reviews elementary algebra, including factoring, rational expressions, linear equations and inequalities, and covers determinants and Cramer's Rule, exponents, radicals, complex numbers, functions and graphs, quadratic equations, and exponential and logarithmic functions.

Ma 113. College Algebra and Trigonometry (4)
This course reviews basic algebra concepts, equations and inequalities of the first and second degree, functions and graphs, linear and quadratic functions, polynomial functions of higher degree, exponential and logarithmic functions, trigonometric functions, analytical trigonometry, systems of equations and inequalities, and sequences and series. (Prerequisite: Ma 12 or equivalent or consent of instructor.) Fall, yearly

Ma 114. Intuitive Approach to Geometry (3)
This course attempts to develop an intuitive understanding of geometric concepts allowing the use of geometry as a tool in understanding other areas of mathematics (e.g. "picturing complex concepts") in addition to developing insight into principles of symmetry and proportion (enhancing aesthetic appreciation) and developing an understanding of geometric principles at the level of useful application. Also emphasized is the use of deduction and its generalization to daily contexts. Covered will be measurement, constructions, congruence, coordinate geometry, and introduction to transformations. Microcomputers will be used where appropriate to facilitate the learning of certain concepts. Fall, yearly

Ma 119 (with Lab). Math Concepts (3)
This course is a college level presentation of the mathematics normally considered important for comprehensive elementary and middle school mathematics curricula. Topical sequence is roughly equivalent to that used in the elementary curriculum along with an initial segment covering approaches to problem solving. A weekly one-hour lab is required. Spring, yearly

Ma 133. Statistics (3)
This course is an introduction to techniques for the treatment of psychological and educational data. Among the topics discussed are frequency, distribution, percentiles, measures of central tendency, variability, the normal curve function and probability, sample correlation analyses, and some applications of sampling theory. Alternate Years
Ma 181. Introduction to Computers (3)
For Course description see Ed 181.
........................................... Each Semester

**Physical Education**

**PE 10. Health Science (1-2)**
Health is defined as a state of complete physical, mental, social and spiritual well-being. Implied in this definition is the theme of inter-relatedness. Within this framework such topics as family life, nutrition, and use and abuse of alcohol, tobacco, and drugs will be addressed. ........................................... Fall

**PE 10A-I. Physical Education (½, ½)**
Students will participate in organized education activities, including group games, individual sports and basic skills in physical accomplishment. Four semesters required for graduation. ........................................... Each Semester

**PE 11A-I. Physical Education (½, ½)**
Required of all sophomores. Classes meet twice each week. ........................................... Each Semester

**PE 12. Introduction to Baseball & Softball (2)**
This is an introductory course designed to give a foundation of understanding of the sports of baseball and softball, including their history, fundamental skills and their application, and its cultural impact on society. Alternate Years

**PE 13. Introduction to Soccer & Football (2)**
This is an introductory course designed to give a foundation of understanding of the sports of soccer and football, including their history, fundamental skills and their application, and its cultural impact on society. ........................................... Alternate Years

**PE 14. Introduction to Volleyball & Basketball (2)**
This is an introductory course designed to give a foundation of understanding of the sports of volleyball and basketball, including their history, fundamental skills and their application, and cultural relationship. ........................................... Spring, Yearly

**PE 15. Introduction to Physical Conditioning (2)**
This is an introductory course designed to give a foundation of understanding of individual physical conditioning, including its history and cultural application in current society. ........................................... Fall, Yearly

**Psychology**

**Ps 1. General Psychology (3)**
An introductory course in psychology. Study includes heredity, environment, personality, emotions, adjustment, physiology, perception, and the learning process. ........................................... Each Semester

**Ps 102. Child Growth and Development (3)**
A study of child life from conception to adolescence, with emphasis upon the theories and process of development and upon responsible adult control of relevant phases of nurture. The course will include concrete experiences in working with children. (Prerequisite: Ps 1.) ........................................... Yearly

**Ps 112. Adolescent Psychology (3)**
Covering the period of life from puberty to emergence from the teens, this course emphasizes the physical, mental, emotional, social, and personality growth with special attention to guidance toward acceptable behavior and the prevention of delinquent behavior. (Prerequisite: Ps 1.) ........................................... Alternate Years
Ps 115A, B, C. Integrative Seminar in Psychology and Theology (1, 1, 1)
A study of the contemporary Evangelical efforts to develop a Christian psychology, focusing on the value of integrative efforts to both the theory and practice of psychology and theology. Discussion includes matters of behavior, cognition, emotion, and motivation. Ps 115C involves the writing of a high quality senior thesis. (Prerequisite: Ps 1 and upper division standing. Three units must be completed for Psychology major.) Yearly
Ps 122. Psychology of Adulthood and Aging (3)
A study of the central concerns of adulthood and aging examined from a development perspective. Special attention is given to models of interpersonal interaction and to how one's life view influences and is influenced by the aging process. (Prerequisite: Ps 1) Yearly
Ps 133. Statistics (3)
This course is an introduction to techniques for the treatment of psychological and educational data. Among the topics discussed are frequency distributions, percentiles, measures of central tendency, variability, the normal curve function and probability, simple correlation analysis and some application of sampling theory, also discussed is the use of the t-statistic as well as an introduction to simple Analysis of Variance models. (Prerequisite: High school algebra with at least a "C" grade, Math 13, College Algebra, or consent of instructor.) Yearly
Ps 144. Principles of Counseling (3)
This course explores methods and characteristic subjects likely to be of concern to the ministerial and professional counselor. The many aspects of working with individuals are investigated by means of case method and free discussion. (Prerequisite: 9 units of psychology.) Yearly
Ps 150. Educational Psychology (2)
This course is a study of learning theory with application to the learning process. The course moves from a consideration of the historical and traditional views of the learning process to the findings of modern research. Lab required. Yearly
Ps 151. Educational and Psychological Measurement (3)
This course is designed to give an overview of the use of psychological measurements and evaluations. It will cover both teacher-made and standardized tests, how to construct and administer them, the evaluation and utilization of their results, interpretation of test scores, and reporting of student growth. (Prerequisite: Ps 1.) Yearly
Ps 154. Social Psychology (3)
An upper division course in behavioral science exploring the interaction between man and his group or groups. Area considered: the nature of man, the description and function of groups, the individual in society, the development of value systems, socialization, group dynamics, and leadership. (Prerequisite: Ps 1 and upper division standing.) Yearly
Ps 155. Human Sexuality (3)
This course is a comprehensive study of human sexuality from biological, social, psychological, moral, and ethical perspectives. The course is developmentally oriented, beginning with the origins of and influences on sexuality in childhood and culminating with a study of aging and sexuality. (Prerequisite: 6 units of Psychology and upper division status.) Yearly
Ps 156. Physiological Psychology (3)
This course studies the physiological basis of behavior. Essentially this means examining brain mechanisms and endocrine functions as they relate to behavior. The course gives the student an elementary knowledge of nervous system physiology and then covers sensory functions, motor functions, motivational functions, and perceptual, learning and memory processes. The course briefly examines behavior disorders in relation to physiological functioning. (Prerequisite Ps 1.) Alternate Years
Ps 158. Personality Theory (3)
The work of the major personality theorists is reviewed, evaluated, and systematized. (Prerequisite: Ps 1.) Alternate Years
Ps 160. Psychology of Learning and Motivation (3)
This course examines both current and historically important theories of learning and motivation. Emphasis will be placed upon a laboratory approach as well as thorough examination of the research literature. (Prerequisite: Upper division standing and permission of instructor.) Alternate Years
Ps 171. History and Systems of Psychology (3)
This course centers on an analysis of antecedents of modern psychology and their relevance to major contemporary systematic positions. Emphasis is placed upon philosophy of science, associationism, structuralism, functionalism, behaviorism, gestalt, psycho-analysis, and recent psychological theories, including existentialism. (Prerequisite: Ps 1.) Yearly
Ps 180. Abnormal Psychology (3)
This course is designed to study personality deviation and behavior disorders. The student is acquainted with the nature of the major types of mental disorders, the theories of etiology, and an exposition of the various methods of treatment. Special attention is given to the problems of drug abuse and alcoholism. Field trips to mental health facilities and centers will be included. (Prerequisite: Ps 1. and upper division standing.) Alternate Years
Ps 181. Introduction to Computers (3)
For course description see Ed 181.
Ps 195. Residence Life Experience (1)
The course is designed for the highly motivated individual who desires to work in the residence situation with students to develop a more socially healthy environment on the Bethany campus. It is largely a "learning by doing" experience directed by the Student Life Office. (May be repeated for credit.) Each Semester
Ps 196. Seminar in Psychology (1-3)
Consideration of relevant topics in psychology. TBA
Ps 197. Field Work in Psychology (1-3)
This course allows the student to do work in applied psychology in an area of his interest. The approach and content of the problem will be worked out in consultation with the division chair. The work must be done in standard psychological format. This course is strongly recommended for majors in Psychology. (Prerequisite: Ps 1. May be repeated.) TBA
Ps 197C. Principles and Practices to Enhance Self-Esteem in Children and Adolescents (3)
This is a 3 unit course which includes 2 hours of lecture plus 1 hour of practicum. The course covers the levels of moral and caring development, plus teaching elementary counseling skills. Students will have the opportunity to work with an elementary school child on a one-to-one basis, using skills learned in the classroom. They will also learn to create and present activities to teach and challenge children's moral development. This course should be of value to anyone planning to work with children; either as teachers, psychologists, or ministers. TBA
Ps. 198. Guided Research in Psychology (1-3)
This is an independent research project undertaken by the student in consultation with the division chair. It is expected that the work will be empirical and quantifiable. The problem is to be reported in specific research format with a thorough review of relevant literature. (Prerequisite: Ps 1) TBA

Ps 199. Directed Readings in Psychology (1-3)
This course allows for in-depth reading in some area of psychology of the student's choosing in consultation with his adviser. (Prerequisite: Ps 1) TBA

Division of English & Communication Arts

Majors: Communication Arts, English

Division Objectives & Purposes
The Division hopes to lead students into a better understanding of the cultural contributions to modern life and thought and to help prepare them for a world in which written, interpersonal, artistic, and performance communication have become increasingly important. Its desire is to see students come to appreciate human creativity in the areas of literature, drama, visual art, and rhetoric, thereby gaining insight into those factors that constitute contemporary values. Artistic merit is to be appreciated for its own sake, but within each area of the Division it is also hoped to see evidenced the relationship of a particular art both to knowledge as a whole and to Christian and spiritual values in particular.

Course Objectives & Purposes—The Major in English
Bethany's concern is to see English majors acquire those language skills and reading habits that will enable them to communicate effectively in society. Exposure to the great literature of the past and present will enable students to understand with greater insight the world in which they live and the common problems of human-kind. Such understanding will lead to more effective service regardless of the area of ministry.

---

**THE MINOR IN ENGLISH**

Bethany offers a minor in English (15 units) for those students who complete twelve (12) units in the English 140-series and three (3) units of approved electives in the English-Communication Arts area.

**THE MINOR IN DRAMA**

Those students who successfully complete Dr 51 Drama Workshop, Dr 160 Theory of Drama, En 149 Shakespeare, and any six elective units in Drama fulfill a Drama minor.

**TEACHING ENGLISH AS A SECOND LANGUAGE (TESL)**

Upon completion of En 118, 137, 138, 139, and Ed 145, the College awards a certificate indicating an emphasis in Teaching English as a Second Language.

**THE MAJOR IN COMMUNICATION ARTS**

With an emphasis on the written, vocal, and visual arts, the Communication Arts major provides form and freedom in an interdisciplinary program of theory as well as practice. The major seeks to expose students to the needs and possibilities in the areas of Communication Arts, to provide an academic balance between thinking and doing in the arts, and to encourage creativity in both church and secular areas. Bethany’s concern is that students majoring in Communication Arts will be prepared for a variety of possible ministries in churches, schools, businesses, and other places as well as being prepared for further studies in graduate and/or professional schools.
Requirements for the Communication Arts Major

Communication Arts

36 Units

English A, 1A, and Sp 2A are prerequisites to the major and cannot be counted toward the major total of 36 units.

Theory Courses

6

Select from:

CA 100 Communication Theory 3
CA 120 Intercultural Communications 3
CA 130 Business Communication 3

Subject of Concentration

12

Choose one area from the following:

Drama, Fine Arts, Language Arts, Mass Communication, and Speech

Supporting subject (9 units)

9

Supporting subject in Literature (9 units)

En 146 British Masterpieces 3
English above #140 3
English above #150 3

Note: It is recommended that Communication Arts majors take foreign language and/or music theory and performance classes as part of their college program.

Course Offerings

(Division of English & Communication Arts)

Communication Arts

CA 197. Practicum (1-2)
Supervised field work in an area of specialization in Communication Arts. May be repeated for one (1) unit credit. TBA

CA 198. Creative Projects (1-2)
The student's developing, organizing, and carrying out, in consultation with his/her adviser or instructor, an experimental, innovative project in Communication Arts. May be repeated for one (1) unit credit. TBA

Drama

CA 100. Communication Theory (3)
An introduction to theory and practice, the role and purpose of the Christian in communication arts and media, and the basis and focus for the student's gifts and ministry in various areas of communication arts.

Spring

Fall, Even Years

CA 120. Intercultural Communications (3)
A study of the theory of communication and value systems of other cultures, the tools needed for effective communication of linguistic and other cross-cultural problems and opportunities in presenting the Christian faith. (See Mi 120, An 120.)

Fall

CA 130. Business Communications (3)
A study of the communication process in business related primarily to productive writing. Emphasis on the principles of functional communication: correct, forceful language use, and sound management policies and practices which lead to effective communication. (Prerequisite: En 1A and 1B.)

Yearly

CA 196. Seminar (3)
Topics or projects of interest in the field of Communication Arts. A list of students interested in taking the course and a proposed description of the course should be submitted for approval to the division chair and the academic dean in the semester before it is to be offered.

Spring

Fall, Odd Years

Dr 51. Acting Workshop (3)
A study of drama activities such as sensory and emotional awareness, rhythm, movement, improvisation, and characterization as well as a study of theatre concepts, purposes, processes, and resources.

Spring

Fall

Dr 100. Play Production (2)
Rehearsal and performance of a full-length play or musical. By audition only. May be repeated. A maximum of six (6) units may be applied to the Communication Arts emphasis.

Spring

Dr 110. Stagecraft and Scenic Design (2)
Supervised practical experience in stagecraft, including set design, construction and painting, stage lighting, and stage management. May be repeated. A maximum of six (6) units may be applied to the Communication Arts emphasis.

Spring

Dr 115. Reader's Theater (3)
A study in the analysis, adaptation, and group performance of literature appropriate to a variety of audiences (i.e., the church, the street, the theater). Performances are done both in and out of class, with special attention given to off-campus, "field" performances.

Spring, Odd Years

Dr 150. The Bethany Players (2)
Student touring groups presenting the gospel in drama, skit, mime, and song on streets, in churches, on campuses, and other places. By audition only. May be repeated for one (1) unit credit.

Spring
Dr 151. Directing Workshop (3)
Introduction to the directing process, including play analysis, selection of material, and rehearsal and performance of a final project. ......................... Spring

Dr 153. The Art of Storytelling (2)
Methods of storytelling and materials for use for every age. Practical methods are used so that every student has opportunity to put theories into practice. Attention is given to off-campus "field" audience opportunities (See CE 153). ......................... Alternate Years

Dr 155. Mime (3)
An introductory class in basic mime techniques, performing skills, writing material, and critiquing. Performances in and out of class required. ......................... TBA

Dr 160. Theory of Drama (3)
Extensive exposure to live and filmed drama and the means to form a critically sophisticated response to drama. Focus is upon Aristotle’s theory, theme, characterization, symbols, and staging. (Prerequisite: En 1B and upper division standing.) ......................... Each Semester

Dr 196. Seminar (1-3)
Topics or projects of interest in the field of drama. A list of students interested in taking the course and a proposed description of the course should be submitted for approval to the division chair and the academic dean in the semester before it is to be offered. ........ TBA

Dr 197. Practicum (1-2)
Supervised field work and/or performance in an area of specialization in Drama. May be repeated for one (1) unit of credit. ........ TBA

Dr 198. Creative Projects (1-2)
The student’s developing, organizing and carrying out, in consultation with his adviser or instructor, an experimental, innovative project in Drama. Creating, writing, and directing a play is a typically possible project. May be repeated for one (1) unit of credit. ........ TBA

En 1A. English Composition and Grammar (3)
The study and practice of writing, including form, rhetoric, and a review of grammar. Emphasis is upon expression and persuasion with practice in essays and research papers. The analysis of the essay as a literary form comprises part of the course structure. (Prerequisite: Qualifying score on entrance exams or passing grade in En A. Students must receive a grade of "C" or above to be admitted to En 140 series courses.) ......................... Each Semester

En 18. Introduction to Literature (3)
An introduction to such basic genres as poetry, drama, and the short story. Continued practice in expository writing begins in English 1A. Discussions and writing on imaginative, historical, and philosophical works to provide students opportunity to develop critical and analytical skills. (Prerequisite: En 1A) ......................... Each Semester

En 112. Children’s Literature (3)
History, trends, and readings in children’s literature: folk tales, myths, fables, fantasy, poetry, and biography. Emphasis is given to various phases of school curriculum including individualized reading, bibliography, and reading for competence. (Prerequisite: En 1B) ......................... Alternate Years

En 118. Linguistics (3)
The study of the structure of words (morphology), the sounds and meanings of words (phonetics and semantics), and the structure of sentences (syntax). Certain aspects of the history of the English language will also be emphasized. ......................... Fall

En 125A. Journalism 1 (3)
Introduction to journalism and the development of news. News gathering and writing, editing, feature writing, advertising, layout and design, printing methods, and copy editing are covered. ......................... TBA

En 125B. Journalism 2 (3)
Continuation of Journalism 1 with additional emphasis on journalism law, ethics, public affairs, and investigative reporting. (Prerequisite: En 125A or instructor consent.) ......................... TBA

En 125C. Journalism Workshop (1)
Supervised workshop in the publication of the campus newspaper. May be repeated. ......................... Each Semester

En 130A. Creative Writing: Prose (3)
Techniques and practice in the writing of stories, essays, and dramatic sketches, with particular emphasis on prose. In-class discussion of student writing. Practice in writing query letters and in submitting manuscripts for publication may comprise part of the course structure. (Prerequisite: En 1A) ......................... Spring, Even Years

En 130B. Creative Writing: Poetry (3)
Techniques and practice in the writing of stories, essays, poetry, and dramatic sketches, with particular emphasis on poetry. In-class discussion of student writing. Practice in writing query letters and in submitting manuscripts for publication may comprise part of the course structure. (Prerequisite: En 1A) ......................... Spring, Odd Years

En 135. Advanced Composition (3)
Intensive practice in developing a high level of competence in writing expository prose. Attention given to the stage of writing as a process. Analysis and comparison of writing styles from literary masterpieces. Recommended especially for prospective teachers in all disciplines. ......................... Fall

En 137. Teaching English as a Second Language: Oral (3)
An introduction to the concepts, methods, and bibliography involved in the teaching of students learning to speak English as a second language. ......................... Fall

En 138. Teaching English as a Second Language: Written (3)
An introduction to the concepts, methods, and bibliography involved in the teaching of students learning to write English as a second language. (Prerequisite: En 116, 157) ......................... Spring

En 139. TESL Tutorial (2)
Supervised practice in teaching non-native speakers of English. (Prerequisite: En 118, 137) ......................... Spring

En 143. Christian Classics: Dante/ Milton (3)
An analysis and comparison of the works of Dante Alighieri and John Milton. The course includes intensive study of Dante’s Divine Comedy and Milton’s Paradise Lost and considers theological as well as literary, artistic, and socio-historical issues. Fulfills upper division IS requirement in Biblical Studies for English and Communication Arts majors. (Prerequisite: En 1B) ......................... Fall, Odd Years

En 144. Contemporary Christian Writers (3)
A survey of the works of prominent contemporary writers who have explored the Christian faith in poetry, biography, essay, and novel. The course includes works by Tolkien and C.S. Lewis. Fulfills upper division IS requirement in Biblical studies for English and Communication Arts majors. (Prerequisite: En 1B) ......................... Fall, Even Years

En 145. Ethnic Literature (3)
Survey of various fictional and non-fictional writings by authors of diverse ethnic backgrounds. Some of the writers include Marquez, Malamud, Angelou, Allen, Nietherhamer, Lam, Baldwin, and Wakenuki. ......................... Spring, Odd Years

En 146. British Masterpieces (3)
A survey of the most representative works in British literature from the early Middle Ages to the present. Attention is also given to the philosophical and cultural characteristics of periods: medieval society, the Renaissance, neo-classicism, the Victorian age, and modernism. (Prerequisite: En 1B) ......................... Fall

En 147. World Masterpieces (3)
Literature as philosophic, humanistic, and theological exploration. Representing diverse ethnic, gender, and cultural perspectives, the course surveys ancient to modern masterpieces from the non-English-speaking world. Fulfills upper division IS requirement in Biblical Studies for English and Communication Arts majors. (Prerequisite: En 1B) ......................... Spring
En 148A. Early American Literature (3)
A study of the works of major American authors from colonial times to the year 1900. Attention is given to relate art, music, and religious, philosophical and historic movements to the literature studied. (Prerequisite: En 18) Fall

En 148B. 20th Century American Literature (3)
Intensive reading and analysis in the works of major American novelists, poets, and dramatists from 1900 to the present. Attention is given to relate art, music, and philosophic and historic movements to the literature studied. (Prerequisite: En 18) Spring

En 149. Shakespeare (3)
A study and analysis of selected Shakespearean plays and sonnets, with attention given to the art, music, and thought of his day. (Prerequisite: En 18) Spring

En 150. Chaucer and His Contemporaries (3)
An in-depth study of English literature from the 7th century to 1485 with special emphasis on Chaucer. The readings for the course are in translation with the exception of the works of Chaucer, which are read in Middle English. (Prerequisite: En 146) Spring, Even Years

En 151. English Renaissance (3)
An analysis of the flowering of literature, music, art, and ideas in England between 1485 and 1600, with particular consideration of the development of drama, prose and poetry. The major works of Milton and Shakespeare are taken up in En 143 and En 149. (Prerequisite: En 146) May Term, Odd Years

En 153. Rise of the Novel: The 18th Century (3)
The development of the English novel in the eighteenth century. Defoe, Swift, Fielding, and Richardson are emphasized. Some background attention also is given to the writings of Dryden, Pope, and Johnson. (Prerequisite: En 146) Spring, Odd Years

En 154. British Romantic Age (3)
An analysis of the English Romantic movement (1798-1832), with special emphasis on the poetry of Wordsworth, Coleridge, Byron, and Keats. Attention is given to relate music, art, philosophic and historic-social movements to the literature studied. (Prerequisite: En 146) May Term, Even Years

En 155. Victorian Age (3)
A detailed examination of English literature written during the reign of Queen Victoria with special emphasis on the Victorian novel and the poetry of Tennyson and Browning. Attention is given to significant historic, sociopolitical, and artistic developments of the time. (Prerequisite: En 146) Fall, Even Years

En 156. 20th Century British Literature (3)
An in-depth study of British literature in the 20th Century (1900-present) with special emphasis on the novel. Attention is given to historical, social, political, and artistic developments of the century. (Prerequisite: En 146) Fall, Odd Years

En 156. Seminar (3)
Topics, authors, or projects of interest in the field of English. Focus reflects diverse ethnic, gender, cultural, and handicapped perspectives. Typical courses: "The Feminine Perspective in Literature," "The Black Experience in Literature," "Psychology and Literature," and "Literature in Theological Perspective." (Prerequisite: one course in the En 146-series) Fall, Odd Years

En 177. Practicum (1-2)
Supervised field work or tutoring in an area of specialization in English. May be repeated for one (1) unit credit. (Prerequisite: En 146) Spring, Odd Years

En 198. Directed Research/Reading (1-2)
Individual, directed study involving an author, a group of authors, or a genre. (Prerequisite: 3.5 GPA plus senior standing) May be repeated for one (1) unit credit. (This course should not be confused with Independent Study, taken in place of an already offered course by students of at least junior standing who are experiencing scheduling problems.) Spring, Odd Years

En 199. Seminar (3)
Topics or projects of interest in the field of Fine Arts. A list of students interested in taking the course and a proposed description of the course should be submitted for approval to the division chair and the academic dean in the semester before it is to be offered. Fall, Odd Years

En 10A. Greek 1 (4)
This course introduces students to phonetics and morphology of New Testament Greek. A limited vocabulary will be learned. (Prerequisite: En 100B) Fall, Even Years

En 10B. Greek 1 (4)
The morphology of New Testament Greek will be completed, and basic syntax will be introduced. Extensive reading in the Greek New Testament is the core of the course. A vocabulary consisting of all words occurring forty or more times in the New Testament will be learned. (Prerequisite: 8L 10A) Spring, Odd Years
LA 50A. Elements of Hebrew (3)
This course will focus on morphology of biblical Hebrew, including weak verbs. An initial vocabulary will be learned.

Fall, Odd Years

LA 50B. Elements of Hebrew (3)
Reading extensively in the Hebrew text will occupy the major portion of this course. Grammatical issues will be addressed as they are encountered in the text, acquainting the student with the use of reference grammars. Vocabulary control will be expanded. (Prerequisite: Bl 50A) Spring, Even Years

LA 100A. Greek 2 (3)
Syntax of case, voice, tense, and mood will be studied. Inner-clause syntax will be learned through sentence diagramming. Vocabulary will be expanded, especially irregular verbs. (Prerequisite: Bl 108) Fall, Odd Years

LA 100B. Greek 2 (3)
Inter-clause relationships will be studied through syntax of subordinate clauses. The bearing of semantics on exegesis will occupy a significant portion of this class. Review of verb conjugation and case, voice, tense and mood syntax will be given, as well as continued vocabulary building. (Prerequisite: Bl 100A)
Spring, Even Years

LA 118. Linguistics (3)
The study of the structure of words (morphology), the sounds and meanings of words (phonetics and semantics), and the structure of sentences (syntax). Certain aspects of the history of the English language will also be emphasized.

Fall

LA 137. Teaching English as a Second Language: Oral (3)
An introduction to the concepts, methods, and bibliography involved in the teaching of students learning to speak English as a second language.

Fall

LA 138. Teaching English as a Second Language: Written (3)
An introduction to the concepts, methods, and bibliography involved in the teaching of students learning to write English as a second language.

Spring

LA 139. TESL Tutorial (2)
Supervised practice in teaching non-native speakers of English. (Prerequisite: LA 137, 138) Spring

LA 148 A,B. Modern Language (3,3)
Introduction and development of conversational skills in a modern language such as Chinese, Indonesian or a European language. Repeatable for credit for different language.

TBA

LA 196. Advanced Seminar in Biblical Languages (1-3)
See BL 196 for description.

TBA

LA 198. Directed Reading/Research (1-3)
Individual, directed study in language, including modern, historic, and biblical languages as well as sub-groups such as dialects. (Prerequisite: Instructor approval)

TBA

Mass Communication

MC 125A. Journalism 1 (3)
Introduction to journalism and the development of news. News gathering and writing, editorials, feature writing, advertising, layout and design, printing methods, and copy editing are covered.

TBA

MC 125B. Journalism 2 (3)
Continuation of journalism 1, with additional emphasis on journalism law and ethics and public affairs and investigative reporting. (Prerequisite: En 125A or Instructor consent.)

TBA

MC 125C. Journalism Workshop (1)
Supervised workshop in the publication of the campus newspaper. May be repeated.

Each Semester

MC 130A. Creative Writing: Prose (3)
Techniques and practice in the writing of stories, essays, poems, and dramatic sketches, with particular emphasis on prose. In-class discussion of student writing. Practice in writing query letters and in submitting a manuscript for publication may comprise part of the course structure. (Prerequisite: En IA)

Spring, Even Years
MC 130B. Creative Writing: Poetry (3)
Techniques and practice in the writing of stories, essays, poems, and dramatic sketches, with particular emphasis on poetry. In-class discussion of student writing. Practice in writing query letters and in submitting a manuscript for publication may comprise part of the course structure. (Prerequisite: En 1A) ....................... Spring, Odd Years

MC 135. Word Processing (3)
Word Processing for beginners, including setting up typed letters, reports and documents. Introduction to prevailing software systems. Printing, editing, deleting and copying are included. ....................... Each Semester

MC 160A. Graphic Arts (2)
Introduction to the theory and practice of graphic arts, design, layout, copy presentation, including supervised workshop in the publication of the campus yearbook. ....................... Fall

MC 160B. Graphic Arts (2)
Continuation of MC 160A. ............ Spring

MC 171. Video Production (3)
Background theory and fundamentals of television production. A portion of class time is spent in laboratory experience, including elementary camera operation, lighting skills, and staging. ....................... TBA

MC 196. Seminar (3)
Topics or projects of interest in the field of Mass Communication. A list of students interested in taking the course and a proposed description of the course should be submitted for approval to the division chair and the academic dean in the semester before it is to be offered. ....................... TBA

MC 197. Practicum (1-2)
Supervised field work and/or performance in an area of specialization in Mass Communications. May be repeated for one (1) unit credit. ....................... TBA

MC 198. Creative Projects (1-2)
The student's developing, organizing, and carrying out, in consultation with his/her adviser or instructor, an experimental, innovative project in Mass Communications. Compiling a literary magazine or producing a film or other media presentation is a typically possible project. May be repeated for one (1) unit credit. ....................... TBA

Sp 2A. Speech (3)
A basic course in public speaking which combines elementary rhetorical principles with opportunity for individual improvement through practice. The course considers the various aspects of the speaker, his speech, the audience, and the occasion. Practical class presentation of speeches is required. ....................... Each Semester

Sp 102. Argumentation and Persuasion (3)
Theory and principles of persuasion and argumentation, including analysis of lines of argumentation found in contemporary social, political, and religious public addresses. Class presentation of speeches is required. (Prerequisite: Sp 2A or instructor consent) ....................... Fall

Sp 110. Oral Interpretation (3)
Analysis and oral interpretation of varied types of prose and poetry including biblical literature. Individual readings before in-class and out-of-class audiences. (Prerequisite: Sp 2A) ............... Spring, Even Years

Sp 112. Pastoral Preaching (3)
Special aspects of pastoral preaching such as special days of the church year and special occasions on which the pastor is called upon to preach. (See PT 112.) (Prerequisite: Sp. 155, or consent of instructor) ............. Alternate Years

Sp 115. Reader's Theater (3)
A study in the analysis, adaptation, and group performance of literature appropriate to a variety of audiences (i.e. the church, the street, the theater). Performances are done both in and out of class, with special attention given to off-campus, "field" performances. ....................... Spring, Odd Years
Sp 120. Debate and Discussion (3)
Principles of argumentation and their application to current issues; analysis, evidence, inference, and refutation. Limited practice in public debate. The course also deals with processes operant in small co-acting group activity. Practice is given in leadership and participation in fact-finding, problem solving, and decision making. (Prerequisite: Sp 2A)

Sp 153. The Art of Storytelling (2)
Methods of storytelling and materials for use for every age. Practical methods are used so that every student has opportunity to put theories into practice. Attention is given to off-campus, "field" audience opportunities.

Sp 155. Homiletics
Introduction to the principles of homiletics and the various forms and structures of sermon outlines. Topical, textual, and expository sermons are given emphasis. Opportunity is given for students to preach before the class for suggestion and criticism. (See PT 155.) (Prerequisite: Sp. 2A.) Each Semester

Sp 160. Expository Preaching (3)
Advanced investigation into the methods of building, organizing, and delivering expository sermons. The student is encouraged both to analyze selected messages of the great expository preachers of the past and present and to prepare several original sermons (manuscript and classroom) for evaluation. (See PT 160.) (Prerequisite: Sp 155.)

Sp 196. Seminar (3)
Topics or projects of interest in the field of Speech. A list of students interested in taking the course and a proposed description of the course should be submitted for approval to the division chair and the academic dean in the semester before it is to be offered.

Sp 197. Practicum (1-2)
Supervised field work and/or performance in an area of specialization in Speech. May be repeated for one (1) unit of credit.

Sp 198. Creative Projects (1-2)
The student's developing, organizing and carrying out, in consultation with his adviser or instructor, an experimental, innovative project in Speech. Special attention is given to off-campus, "field" activities in Speech. May be repeated for one (1) unit credit.
Division of Music

Major: Music

Division Objectives & Purposes
Since music plays an important role in society as a whole, the music major prepares the student for a variety of roles: minister of music, music teacher (kindergarten through grade 12), musical performer, composer, and other forms of employment where a general knowledge of music is required. An effort is made to balance the theoretical and the practical so that the musician is able to perform appealingly and, at the same time, understand the structure and theory of music.

Course Objectives & Purposes
The student completing this major will be able to:

1. Evaluate the role of music in light of the total ministry of a church.
2. Teach music in public and/or private schools.
3. Perform artistically.
4. Evaluate various instrumental and vocal media.
5. Evaluate music structurally, historically, and aesthetically.

Transfer Students
Transfer students should contact the Music Division chair for competency evaluation in theory, sight singing, piano, and applied music to determine the appropriate course level for studies. Examination(s) may be necessary for accurate placement.

Concentrations
The student may select from six areas of concentration. (See the 'Requirements for the Music Major' chart.)

Students admitted to the minister of music concentration must demonstrate leadership ability, communication skills, emotional stability, and positive interpersonal relationships. Students should apply for admission to the Minister of Music concentration at the end of their sophomore year.

Students admitted to the performance concentration must demonstrate evidence of exceptional talent, well-developed musicianship, artistic sensibilities, and a strong sense of commitment. Students should apply for admission to the performance concentration at the end of their freshman year. Candidates will subsequently be evaluated each semester.

### Area of Concentration (Choose one)
- **Minister of Music** (111; 143; 160; 197; 105 or 106; PT 105, 145) 17 units
- **Music Education** (10, 38A, 102B; 104, 106, 107, 140A, 140B, 140C, 140D, 144, 145, 140, Ed 181) 25 units
- **Performance (Electives)**: (102B, 104, 105, 106, 107, 110, 112, 124, 126, 127, 140A, 140B, 140C, 140D, 143-146, 160) 10 units
- **Theory/Composition (106, 199); and 8 units selected from 102B, 104-108/111** 10 units
- **General (Electives)**: (102B, 104-108) 10 units
- **Music/Business** (10, 140; 38A, 12, 112, 130, 131, 140; and 9 units selected from 6A, 6B, 102B, 104-107, 111A, 111B, 112, 140-140) 10 units

* Not required for Music/Business major
† May be taken following graduation, but is required for credential.

These 50–65 units represent the academic courses which constitute the major. In addition, the courses and activities listed below must be taken to establish proficiency in applied music. Piano proficiency must be met before enrolling in the 100-level music theory courses.

**Piano Proficiency:** All students majoring in music must pass a piano proficiency examination or register in piano until the examination is passed. Students will demonstrate skill in piano playing by (1) sight-reading a four-part hymn or choralale, (2) improvising a simple accompaniment to a melody, and (3) performing a prepared piece such as Bach, Two-Part Inventions, Beethoven, Sonatas, Op. 49, or Schumann, Album for the Young. (Music Education concentration, contact the music division chair for exam content.)

**Voice Proficiency:** All students majoring in music must pass a voice proficiency examination or register in voice until the examination is passed. Students will demonstrate skill in voice by (1) sight singing two of the four parts of a hymn or choralale, (2) singing vocalises equivalent to Siever, Op. 96, and (3) singing a vocal solo equivalent to those in the current text used for Mu 32A, Voice: Fundamental Techniques class.

---

**Music Lessons:** Lessons are required each semester of residence up to 8 semesters. Select from Mu 50-57 and Mu 150-157. A satisfactory grade in jury auditions is required each semester in the major performing instrument. A fee is charged for lessons in addition to the unit cost. (See “Semester Costs & Financial Policies” in the back of the catalog.)

**Music Activities:** Participation in a major performing group is required each semester of residence up to 8 semesters. (Keyboard majors select from Mu 24/124 [with music faculty consent], Mu 21/121, Mu 22/122, or Mu 25/125. Voice majors select Mu 22/122. Instrumental majors select Mu 25/125.)

**Music Recital:** Regular attendance at music recitals is required.

**Senior Recital:** A satisfactory senior recital is required for all students majoring in music.

Note: In addition to the above courses, the student must pass a voice proficiency and piano proficiency test.

---

**Course Offerings (Division of Music)**

### Music

**Mu 1A. Musicianship (1)**

Proper notation, interval recognition, triad recognition, meter recognition, sight singing, rhythmic dictation, and dictation of diatonic melodies based on scale step motion and leaps within the primary triads. The practical application of music theory. **Fall**

**Mu 1B. Musicianship (1)**

Continuation of Mu 1A. Melodies of greater length with wider leaps and some syncopation. Harmonic dictation in recognition of diatonic progressions of triads with inversions. The practical application of music theory. **Spring**

**Mu 2A. Musicianship (1)**

Continuation of Mu 1B. Includes singing and dictation of modulating melodies containing some altered tones in simple and compound meters. Harmonic dictation of chords containing diatonic triads and introducing seventh and altered chords. The practical application of music theory. **Fall**

**Mu 2B. Musicianship (1)**

Continuation of Mu 2A. Singing and dictation of modulating chromatic melodies in simple and compound meters. Harmonic dictation of four-part chorales with altered chords and modulation. Recognition of twentieth century sonorities. The practical application of music theory. **Spring**

**Mu 5A. Comprehensive Music Theory (3)**

Survey of harmony, melody, and form in historical context. Introduction to traditional western harmonic practice including four-part diatonic writings, simple harmonic progressions, typical cadences, basic chord types, and melodies. Introduction to concepts of instrumentation, transposition, and conducting. (Mu 1A. concurrent.) **Fall**

**Mu 5B Comprehensive Music Theory (3)**

Continuation of Mu 5A. Study of harmonic practices including sevenths, ninths, elevenths, thirteenth, secondary dominants, and modulation. Continued analysis of musical parameters in historical context. (Prerequisite: Mu 5A; Mu 1B concurrent.) **Spring**

**Mu 6A. Comprehensive Music Theory (3)**

Continuation of Mu 5B. Study of harmonic practices including Neapolitan sixth, augmented sixth, altered chords, and chromatic modulation. Continued analysis of musical parameters in historical context. (Prerequisite: Mu 5B; Mu 2A concurrent.) **Fall**

**Mu 6B. Comprehensive Music Theory (3)**

Continuation of Mu 6A. Study of compositional practices of the twentieth century historical period. Creative compositions for instruments and voices. (Prerequisite: Mu 6A; Mu 2B concurrent.) **Spring**

---

94
Mu 9. Fundamentals of Music (3)
This course is designed to assist the student with no (or limited) musical training to read, write, and understand the symbols of music notation, and to realize this knowledge and skill in a practical way by correlating it with performance and listening activities.
Fall

Mu 10. Music Literature (3)
General survey of western music (Middle Ages through the 20th century) and non-Western music (Asian, Oceanic, African, and Latin American).
Spring, Even Years

Mu 12. Introduction to Church Music (3)
This course is designed to assist the student with little or no musical training to read, write and understand the symbols of basic music notation. Includes studying of the origin and development of the songs used for congregational singing and leading skills for leading a congregation in singing (musical worship).
Spring

Mu 21. Ambassadors (1)
A select mixed ensemble (vocal and instrumental) open to a limited number of students who perform traditional and contemporary literature. Traveling group.
Each Semester

Mu 22. Concert Chorale (1)
A select mixed chorus open to those who wish to perform concert literature. Limited performances. By permission of the instructor.
Each Semester

Mu 24. Piano Ensemble (1)
Reading and performance of piano accompaniments.
On Demand

Mu 25. Concert Band (1)
An ensemble open to instrumentalists who wish to perform concert literature. By permission of the instructor.
Each Semester

Mu 26. Instrumental Ensemble (1)
A select group open to those who wish to perform standard and contemporary literature. By permission of the instructor.
On Demand

Mu 27. Vocal Ensemble (1)
Reading and performance of sacred music in churches and/or standard literature in recitals. By permission of the instructor.
On Demand

Mu 30A,B,C,D. Piano — Fundamental Techniques (1,1,1,1)
Class instruction in the fundamentals of piano. Preparation for piano proficiency examination may be made in these courses. (Lab fee)
Each Semester

Mu 32A,B. Voice — Fundamental Techniques (1,1)
Class instruction in vocal technique. Preparation for voice proficiency examination may be made in these courses. Mu 32B is a continuation of 32A.
Each Semester

Mu 38A,B. Guitar (1,1)
Class instruction in the fundamental techniques of guitar.
Each Semester

Mu 50. Piano — Lower Division (1,2)
Required each semester of lower division piano majors. Private instruction in piano technique and performance.
Each Semester

Mu 51. Organ — Lower Division (1,2)
Required each semester of lower division organ majors. Private instruction in organ technique and performance.
Each Semester

Mu 52. Voice — Lower Division (1,2)
Required each semester of lower division voice majors. Private instruction in vocal technique and performance.
Each Semester

Mu 54. Brass — Lower Division (1,2)
Required each semester of lower division brass majors. Private instruction in brass technique and performance.
Each Semester

Mu 55. Woodwind — Lower Division (1,2)
Required each semester of lower division woodwind majors. Private instruction in woodwind technique and performance.
Each Semester
Mu 56. Strings — Lower Division (1,2)
Required each semester of lower division string majors. Private instruction in string technique and performance. ....... Each Semester

Mu 57. Percussion — Lower Division (1,2)
Required each semester of lower division percussion majors. Private instruction in percussion technique and performance.

Mu 100. Senior Recital (0)
The senior music major will receive a credit/no credit grade for performance in recital. No academic credit is granted. ....... Each Semester

Mu 101. Music Recital (0)
Music majors are required to attend evening recitals which are scheduled in the same manner as a class (one hour per week). No academic credit is granted. A credit/no credit grade is given. ....... Each Semester

Mu 102A. Conducting (2)
Basic choral and instrumental conducting techniques, with emphasis on choral conducting. (Prerequisite: Mu 5A or by permission of instructor.) ....... Fall

Mu 102B. Advanced Conducting (2)
Advanced choral and instrumental conducting techniques; includes instrumental and vocal score reading and conducting ensembles under supervision. Emphasis on instrumental conducting. (Prerequisite: Mu 102A.) ....... Spring, Odd Years

Mu 104. Counterpoint (2)
Based on the theoretical practice of the eighteenth century historical period. The five species, imitation, canon, and invertible counterpoint studied by analysis and writing. (Prerequisite: Mu 5B.) ....... Spring, Even Years

Mu 105. Choral Arranging (2)
A practical study of arranging for choirs and vocal ensembles. Attention is given to range problems, voice leading, instrumental accompaniments, arranging styles, and analysis. (Prerequisite: Mu 6B.) ....... Fall, Even Years

Mu 106. Orchestration (2)
The study of ranges, sonorities, transpositions, and technical consideration of all orchestral instruments. Scoring short examples for ensembles and orchestras. (Prerequisite: Mu 6B.) ....... Fall, Odd Years

Mu 107. Form and Analysis (2)
Recognition and analysis of the standard forms of music in the historical context of the eighteenth and nineteenth centuries. The opportunity for the writing of original short compositions demonstrating a basic understanding of the various forms. (Prerequisite: Mu 6B.) ....... Spring, Odd Years

Mu 108. Composition (2)
Creative writing for vocal and instrumental soloists and small ensembles using compositional practices of the twentieth century historical period. (Prerequisite: Mu 6B.) ....... On Demand
Mu 111A. Music History (3)
Chronological survey of the development of the art of music from the ancients through the Renaissance. (Prerequisite: Mu 5B or by permission of instructor.) .................. Fall

Mu 111B. Music History (3)
Chronological survey of the development of the art of music from the baroque to the present. (Prerequisite: Mu 5B.) .................. Spring

Mu 112. Hymnology (2)
A history of the music of the Bible and the origin and development of the modern hymn and gospel song. ................. Spring, Even Years

Mu 121 Ambassadors (1)
(See Mu 21.) .................. Each Semester

Mu 122. Concert Chorale (1)
(See Mu 22.) .................. Each Semester

Mu 124. Piano Ensemble (1)
(See Mu 24.) .................. On Demand

Mu 125. Concert Band (1)
(See Mu 25.) .................. Each Semester

Mu 126. Instrumental Ensemble (1)
(See Mu 26.) .................. On Demand

Mu. 127. Vocal Ensemble (1)
(See Mu 27.) .................. On Demand

Mu 128. Musical Production (2)
Rehearsal and performance of musical or operetta literature. Concentration on all aspects of the production related to performance. By audition only. May be repeated. .................. On Demand

Mu 130. Keyboard Musicianship (1)
Class instruction in melodic harmonization at the keyboard, pianistic style accompaniments, transposition, modulation, and improvisation. (Prerequisite: Mu 30C or equivalent.) .................. Each Semester

Mu 140A. Strings — Techniques and Literature (1)
Fundamentals, literature, techniques, and ensemble. ................. Spring, Odd Years

Mu 140B. Woodwinds — Techniques and Literature (1)
Fundamentals, literature, techniques and ensemble. ................ Fall, Even Years

Mu 140C. Brass — Techniques and Literature (1)
Fundamentals, literature, techniques and ensemble. .................. Fall, Odd Years

Mu 140D. Percussion — Techniques and Literature (1)
Fundamentals, literature, techniques and ensemble. ................ Spring, Even Years

Mu 143. School Music Curriculum (3)
Principles and problems of music curriculum development are studied. Emphasis on development of a curriculum based on behavioral objectives and methods best suited to obtaining those objectives. .................. Fall

Mu 144. Elementary School Music (2)
Music programs in the elementary school: philosophies, technology, materials, observations, and performance of school music. .................. Fall, Even Years

Mu 145. Secondary Vocal Music (2)
Vocal music programs in secondary schools: principles, organization, techniques, literature, materials, and observation. .................. Spring, Odd Years

Mu 146. Secondary Instrumental Music (2)
Instrumental music programs in secondary schools: principles, organization, marching band, techniques, literature, materials and observation. .................. Spring, Even Years

Mu 150. Piano — Upper Division (1-2)
Required each semester of upper division piano majors. Private instruction in piano technique and performance. ................. Each Semester

Mu 151. Organ — Upper Division (1-2)
Required each semester of upper division organ majors. Private instruction in organ technique and performance. ............. Each Semester

Mu 152. Voice — Upper Division (1-2)
Required each semester of upper division voice majors. Private instruction in vocal technique and performance. ............. Each Semester
Mu 154. Brass — Upper Division (1,2)
   Required each semester of upper division brass majors. Private instruction in brass technique and performance. ... Each Semester

Mu 155. Woodwind — Upper Division (1,2)
   Required each semester of upper division woodwind majors. Private instruction in woodwind technique and performance. ...
   Each Semester

Mu 156. Strings — Upper Division (1,2)
   Required each semester of upper division strings majors. Private instruction in string technique and performance. ... Each Semester

Mu 157. Percussion — Upper Division (1,2)
   Required each semester of upper division percussion majors. Private instruction in percussion technique and performance. ...
   Each Semester

Mu 160. Church Music Administration (2)
   Studies concerning the ministry of the director and music in the local church. From time to time the course will feature special lectures and workshops conducted by those currently engaged in this type of work.
   Spring, Odd Years

Mu 194. Field Observation (1)
   An individual studies course in which the student spends time observing and/or helping the music teacher in a school music program or the music minister in a church music program.

Mu 195A, B. Practice Teaching (2,2)
   A program for advanced music students selected by the division head. Candidates receive specific coaching in methods and procedures in giving private instruction.

Mu 196. Seminar in Music (1-3)
   Consideration of current topics in church and secular music. ... On Demand

Mu 197. Practicum (2)
   This course involves field work in music under supervision, emphasizing actual experience in the music program of a local school or church.

Mu 199 Directed Reading (1-3)
   The advanced student is permitted a limited amount of directed reading and study in areas of special interest. ... TBA

---

Division of Social & Natural Sciences

** Majors: Business Administration, Intercultural Relations, Social Science, Social Science with teaching credential**

**Divisional Objectives and Purposes**
The Division of Social and Natural Sciences aims to develop the student's understanding of self, environment, nation and world, and to create awareness of the relationship between Christian faith and the created universe, scientific method, and shared human destiny. The social processes of history and the dynamics of societal and governmental structures are foundational to the grasp of contemporary world events and trends. The Division provides training in scientific method of inquiry and in mathematical and business skills, as well as in the social sciences essential for effectively relating with people of other cultures, including ethnic groups within modern U.S. society. These skills are seen to be indispensable for today's Christians in whatever ministry or career field.
THE MAJOR IN INTERCULTURAL RELATIONS

The Intercultural Relations major stresses development of skills for relating effectively with people of different cultures—skills in ever-increasing demand within multi-ethnic America as well as internationally. The Intercultural Relations major with missions emphasis gives an excellently balanced program for prospective missionaries and church growth specialists. The Intercultural Relations major with professional studies emphasis provides outstanding training for educators, business persons, government workers or others who may not pursue a full-time religious vocation, as well as for missionaries, and offers excellent preparation for further academic studies in seminary or secular university.

THE MAJOR IN SOCIAL SCIENCE

The interdisciplinary Social Science major leads to an understanding of the contemporary world through courses in several of the social sciences, including anthropology, economics, geography, history, political science, and sociology. The major provides basic courses in human culture and social organization, the operation of the modern nation-state, world history, and contemporary social developments in the emergent nations. The major is particularly suited for careers in industry, government, higher education, and other fields emphasizing a broad, interdisciplinary formation.
Requirements for the Social Science Major

Social Science 36 units
Subject of concentration (chosen from anthropology, history, psychology, or sociology) 12
Supporting subjects chosen from anthropology, economics, history, psychology, or sociology 9
First supporting subject 9
Second supporting subject 9
Electives (social science) 6

* Not including social science courses taken in fulfillment of the general education requirements.

Social Science Major Leading to a Teaching Credential
This major program allows the student to complete the secondary teaching credential. The core of required courses in social sciences totals 30 semester units. Each course within the 30-unit block is in or directly related to subject matter commonly taught in public schools as specified in Title V, 80080.

Requirements for the Major Leading to the Teaching Credential

Social Science (with Teaching Credential) 45 units
Required Core Courses (24 Units)
Ge 112 Human Geography 3
Hi 17A History of the United States to 1865 3

Ec 1B Micro Economic Analysis 3

The Business Leadership Program
The Business Leadership Program offers a four-year Bachelor of Arts degree in Business Administration with areas of concentration in management or general business. This program is designed to prepare students for leadership roles in profit and non-profit organizations by providing them with a thorough understanding of the fundamental areas of business and economics within the context of a future-oriented, global society.

Bachelor of Arts in Business Administration
The Bachelor of Arts degree requires a student to complete 37 units of business foundation courses in addition to 41 units of General Education requirements and 30 units of Biblical Studies. Students who choose to complete a concentration in Management must complete 24 units of upper division requirements. Students may also complete a concentration in General Business by completing 24 units of electives from the business area (nine units must be upper division courses).
Foundation Courses: Bu1A, Bu1B, Bu2, Bu10, Ec1A, Ec1B, Bu105, Bu120, Bu130, Bu133, Bu135, Bu195
Management Concentration: (Upper Division) Bu110, Bu140, Bu145, Bu152, Bu155, Bu160, Bu170, Bu180
General Business Concentration: 24 units of electives from the Bu electives. 9 units must be Upper Division courses.

ASSOCIATE OF ARTS IN BUSINESS ADMINISTRATION
The Associate of Arts degree requires a student to complete 6 units of Economics in addition to 21 units of General Education Requirements and 12 units of Biblical Studies. Students who choose to complete a concentration in Management must complete 26 units of management studies. Students may also complete a concentration in General Business by completing 26 units of electives from the business area.
Management Concentration: Bu1A, Bu1B, Bu2, Bu10, Bu105, Bu120, Bu130, Bu133
General Business Concentration: 26 units of electives from the Bu electives.

COURSE OFFERINGS
(DIVISION OF SOCIAL AND NATURAL SCIENCES)

ANTHROPOLOGY

An 10. Cultural Anthropology (3)
A survey of the field and major premises of cultural anthropology, including organization and dynamics of human cultures, marriage and family systems, thought processes and language, worldview and religion, social change and intercultural relations. Emphasis on the relevance of intercultural studies for problems of the modern world and Christian faith. ........................................... Fall

An 105. Culture and Personality (3)
Anthropological insights into the structuring of individual human personality by cultural factors. Examines child-rearing practices, social/cultural character, values, mental health and deviance; and psycho-cultural change. (Prerequisite: Ps 1 and An 10) .................. Spring

An 118. Linguistics (3)
The study of the structure of words (morphology), the sounds and meanings of words (phonetics and semantics), and the structure of sentences (syntax). Aspects of the history of English will also be emphasized. .......... Fall

An 120. Intercultural Communications (3)
Study of value systems of other cultures; the tools needed for effective communication with them; and the consideration of changes resulting from presentation of the Christian message. ........................................... Fall

An 135. Religion in Culture (3)
Examination of the forms and functions of the religious urge in different cultures, the so-called "primitive" religions and actual folk practices—often in sharp contrast to official dogmas—associated with the great religions including Christianity. .................... Fall

An 145. Culture Area Studies (3)
Survey of peoples, customs, current problems and religious situations in a selected culture area such as East Asia, Europe, Latin America or the Muslim world. May be repeated for credit. .................................... Spring

An 146. The Black Experience (3)
Survey of the history and present sociocultural position of Blacks in U.S. society. Development of the black church is highlighted. Special attention is given to Black contributions to American literature, music and cultural life. ............................................. Spring

An 161. World Population Trends and Urbanization (3)
Study of the dynamics of current world population trends: increase, changing age ratios, migration and movement, refugees, and urbanization. Looks at structures of contemporary urban communities including social, psychological and subcultural dimensions. Future trends and their implications for economic, educational and religious planning are examined. ...... Alternate Years

An 165. Cultural Change and World Problems (3)
Survey of the dynamics of culture change and the role of change agents, including pastors, missionaries, commercial people and civil authorities. Selected current world problems and crisis situations are examined in the light of culture change processes. ............... Spring

An 195. Directed Research (1-3)
Independent research carried out under general supervision of adviser. .......................... TBA

BUSINESS

Bu 1A. Principles of Accounting (1-4)
An introduction to the basic assumptions that underlie modern accounting, the principles, procedures and methods applied in the preparation of financial statements. ......... Yearly

Bu 1B. Principles of Accounting (2-4)

Bu 2. Introduction to Business (3)
A survey of the fundamentals of modern business methods, including functions, objectives, ethics, and the environment of business in contemporary society. Treatment of the classical concepts of capitalism and the market economy. Required for the business program and recommended for non-Business majors. ............................................. Spring

Bu 5. Introduction to Electronic Data Processing (3)
An introduction to general purpose digital computers and microcomputers and their applications in the business world. Includes an introduction to word processing, familiarity with BASIC, and business application of accounting programs. ......... Yearly

Bu 10. Principles of Management (3)
The development of a unified concept of the principles of management which have general applicability to all types of organizations. A study of principles involved in the functions of planning, organizing, staffing, directing and controlling an organization. An introduction to basic management philosophy and the decision making process. ......... Yearly
Bu 14. Business Mathematics (3)
An introductory course in practical business applications of mathematics. Notes and interest, sales, and property taxes, stocks and bonds, bank reconciliations, discounts on notes, annuities and payroll computation will be considered. Yearly

Bu 105. Introduction to Computers (3)
The course is designed to provide an introduction to the uses of computers in contemporary society. Specifically, students will learn the function of the major components of microcomputer systems and how to use them. The history, mathematics, languages, jargon and applications of computers will be covered. Examination of the manufacture of hardware and software will take place along with the criteria for the evaluation of both. The course will provide an elementary introduction to programming languages and applications programs. Each semester

Bu 110. Principles of Marketing (3)
An introduction to fundamentals involved in the marketing process, concerned with the functions, institutions and channels used to distribute goods and service from producer to consumer. Yearly

Bu 120. Business Law (3)
Law as it relates to business institutions and their operations, and the effect of social forces and their effect upon the development of law. Contracts, agencies, commercial paper, personal property, sales real property and insurance will be discussed. Yearly

Bu 130. Finite Math (3)
An introductory course in set theory, basic concepts of calculus, inequalities, linear equations, matrix algebra and mathematics for finance. Prerequisite (Math 113 or equivalent.) Yearly

Bu 133. Business Statistics (3)
An introductory course in basic business statistics. Among the topics discussed are frequency distribution, percentiles, measures of central tendency, variability, the normal curve function and probability, simple correlation analyses, and applications of sampling theory. Yearly

Bu 135. Quantitative Analysis (3)
The application of quantitative methods to decision making. Emphasis is placed on decision theory, advanced linear programming, game theory, PERT, forecasting, queuing, simulation, and Markov analysis. (Prerequisite: Bu 130, Bu 133.) Spring, Even Years

Bu 140. Principles of Finance (3)
A study of basic principles and theories of business finance, including cash flow analysis, working capital management, capital budgeting, investment banking, mergers, acquisitions, reorganizations and liquidations. (Prerequisite: Bu 130 and Bu 1A & IB.) Spring, Even Years

Bu 145. Accounting for Government and Non-Profit Organizations (3)
A study of the accounting techniques for proper management of governmental and other non-profit entities. (Prerequisite Bu 1A & 1B.) Fall, Odd Years

Bu 152. Organizational Behavior and Development (3)
An examination of organizational development, principles of leadership and their application to group settings. Emphasis will be placed on organization and work design, goal setting and reward systems, and managing change. (Prerequisite: Bu 10.) Fall, Odd Years

Bu 155. Principles of Human Resource Management (3)
An introduction of the role and scope of human resource management and development with particular emphasis to required competencies for HRD professionals. Studies include the labor force and labor markets, industrial personnel and manpower programs, organization and policy in personnel activities. Fall, Even Years

Bu 160. Communications in Business (3)
A study of the communication process in business as related primarily to productive writing. Emphasis on the principles of functional communication, including us of correct, forceful language and management policies and practices that lead to effective communication. (Prerequisite: En 1A & 1B.) Yearly
Bu 170. Introduction to Management Information Systems (3)
A study of business systems and the role of technology in today's business organizations. Topics include applications in business and finance, the systems life cycle, use of technology for strategic planning, and strategies for implementation of technologies in the workplace. Fall, Odd Years

Bu 180. Business and Public Policies (3)
A study of strategy and policy formulation and implementation and effects on various levels of management. Uses case studies to integrate the effects of social, political, legal, economic and ethical issues on policy formulation. Spring, Odd Years

Bu 190. Internship in Management (3)
Internship experience in an organization, emphasizing management, human relations or administrative skills. Prerequisite: 12 hours of management, permission of divisional chair. Offered on demand.

Bu 195. Senior Seminar (2)
A capstone class reviewing major objectives from the management degree program. Students displaying competency in the objectives by receiving a minimal grade on a comprehensive test may receive credit for the class. The class also discusses job search techniques, resume writing and effective interviewing. Yearly

Ec 1A. Macro-Economic Analysis (3)
Analysis of the national economy, money and credit, income, employment, prices, and monetary and fiscal policies. Yearly

Ec 1B. Micro-Economic Analysis (3)
Theories of supply, demand, price of goods, services, factors of production, monopoly, and market equilibrium. Includes discussion of wages, rent, interest, profits, and income. Yearly

Ec 101. Money and Banking (3)
Money, banking, central banking, financial institutions, Federal Reserve policies, interest rates, price level theory, and foreign exchange. TBA

Geography

Ge 112. Human Geography (3)
A regional treatment of human geography with emphasis on the relationship of human population to natural resources, economics, land tenure, settlement and adaptation to climate. Consideration is also given to urban geography. Yearly

Ge 143. Geography and History of the Near East (3)
Study of geographical and political relationships of Near Eastern lands from ancient times to the present, with emphasis on the class of cultures. Alternate Years

Ge 160. Geography and History of the Far East (3)
For description see Hi 160.

Ge 161. Geography and History of Africa (3)
For description see Hi 161.

Ge 162. Geography and History of Latin America (3)
For description see Hi 162.

History

Hi 4A. History of Civilization (3)
A survey of history from earliest times to 1648. Emphasis is placed on the emergence of values and institutions which became incorporated in the life of the Western world prior to the modern era. Fall

Hi 4B. History of Civilization (3)
A survey of history from 1648 to the present. Attention is given to the development of the nation state. Enlightenment thought, the consequences of the Industrial Revolution, imperialism, and modern political and social movements. Spring
Hi 17A. United States History to 1865 (3)
The development of American institutions and values from colonial times through the Civil War. Emphasizes the formative years of the new republic, including the events leading to the Constitution, the development of political precedents and parties, the conglomeration of national values, westward expansion, and sectional conflict. Alternate Years

Hi 17B. United States History Since 1865 (3)
A consideration of the social, economic, political, and cultural development of the United States from Reconstruction to the present. Emphasis is placed on the emergence of contemporary policies and problems and on the stresses imposed on the inherited national values in the twentieth century. Spring

Hi 105A. History of Medieval Europe (3)
A study of the history of Europe from the beginnings of the Christian era to the eve of the Protestant Reformation. Emphasis is placed on the development of the church as an institution and on its function in medieval society. Yearly

Hi 105B. History of Early Modern Europe (3)
A continuation of 105A, beginning with the Protestant Reformation. The main emphasis of the course is on the shaping of the modern world scene as revealed in the religious, political, and social backgrounds of the contemporary European nation-states. Yearly

Hi 110. Ancient History (3)
An examination of early civilizations from Babylonia to Rome, with stress on the social and political organization of the ancient world. The course provides useful background for students of Old Testament history. Alternate Years

Hi 112. The 20th Century (3)
An intensive study of historical events in this century as they have led to the shaping of the present world scene. Alternate Years

Hi 113. Intellectual History of the United States (3)
The principal system of ideas about man and God, nature and society, which have been at work in American history. Emphasis on the sources of these ideas, their connections with one another, and their expression in great documents of American thought. Alternate Years

Hi 114. Religious History of the United States (3)
Development of the diverse religious traditions of the American people from colonial times to the present. Attention is given to the sources of religious ideas and movements in the framework of national history. Alternate Years

Hi 125. History of World Missions (3)
Survey of Christian missions from the apostolic beginnings to the present. Emphasis is on the strategic and theological responses of the church to different cultural situations as well as to the contemporary problems of war, revolution, social and demographic change, and ideological conflict. Alternate Years

Hi 146. Hispanic Church in Historical Perspective (3)
A survey of the Evangelical movement, especially Pentecostalism, among Hispanics in the United States and Latin America. Present situations, opportunities, and future challenges are examined, as well as methodologies for ministry and evangelism. Spring

Hi 155. History of Political Thought (3)
The doctrines and influences of the principal political philosophies in the 20th century, including communism, fascism, socialism, and liberal democracy. Alternate Years

Hi 158. California History (3)
The political, social, and economic history of California since the Spanish colonial foundations. Emphasis is placed on the emergence of a distinctive Californian approach to contemporary social and political problems. Alternate Years

Hi 160. History of the Far East (3)
A survey of Asian peoples with emphasis on geographical setting, the development and recent modifications of their historical use of resources and traditions. Alternate Years

Hi 161. Geography and History of Africa (3)
A survey of Africa from the pre-European empires to the present. Emphasis is placed on geographical setting, use of resources, the impact of colonialism and the emergence of the contemporary African states. Alternate Years

Hi 162. Geography and History of Latin America (3)
A survey of Latin America from the Conquest to the present, including an analysis of the colonial foundations, the geographical setting, use of land and other resources, the development of the modern nation-states, and the problems of development and social change. Alternate Years

Hi 170. Intellectual History of Europe (3)
A study of the major intellectual and cultural developments in Europe from the Middle Ages to the present. The course compares the philosophical assumptions of European life in successive eras as understood by representative figures in science, politics, religion, and art. Alternate Years

Hi 196. Seminar in History (1-3)
Consideration of relevant topics in history. TBA

Hi 198. Historiography (3)
Exercise in the procedures of historical research and composition, and an introduction to the historiographical tradition through the writings of eminent classical and modern historians. TBA

Hi 199. Directed Reading (1-3)
Under the direction of the major adviser, the student may pursue some area of particular interest. TBA

Sc 5. Natural Science (3)
An elementary study of basic concepts of biological, environmental, chemical and physical sciences. Lecture and Laboratory. (May be used to meet general studies science requirements; does not meet Multiple Subjects requirements; prerequisite for all science courses)

Sc 10. Physical and Earth Sciences (3)
This is an introductory course designed for non-science majors. The main goal of this course is to present physical sciences in an interesting and intelligible way for those students for whom this may be the last formal contact with the subject.

This course presents some of the major ideas in physics, chemistry, astronomy, geology, meteorology and other sciences indicating how they came to be and applying them to topics of current interest. The emphasis throughout is on the nature of science as a creative human enterprise, the role it plays in modern society, and its relationship to technology. When a natural law or phenomenon is discussed, rather than simply being given, the student is free to question and discover as well as some of the applications and limitations. Spring

Sc 12. General Biology (4)
This course in biology is designed to emphasize the continuity of living systems and their components, needs and histories. Students explore plant, protozoa, animal, and human life through the study of metabolism, heredity, growth, reproduction, organic and inorganic ecological cycles and adaptive change—operations that function within the individual organism and upon the earth.

Students will apply principles involved in the regulating of living organisms and systems in their development of projects that will positively affect the conservation and health of an ecosystem. The concepts will be explored inductively through scientific experimentation. Projects will be done in cooperation with community action groups which promote the positive use and conservation of the environment. (Prerequisites: SC 5.)
Sc 115. Field Biology (3)
A survey of the local flora and fauna. Identification and classification of life forms found in the Santa Cruz area will be emphasized. (Lecture, laboratory, and field study.) (Prerequisite: SC 12.) TBA

Sc 117. Conservation Ecology (3)
This is a study of the relationship of plants and animals to their environment. The harmony of the plant and animal communities, including food production, the food chain, energy recycling and human influence, will be emphasized. Ecological principles of conservation and their economic and aesthetic importance will also be stressed. Lecture and Laboratory. (Prerequisites: SC 12.) Even Years

Sc 118. Integrated Thematic Science (3)
This course is designed to present science as an interrelated field and provide the non-science major broad knowledge of the key concepts in the field of science. Each of the main topics—energy, evolution, patterns of change, structure and function relationships, stability, and systems and interactions, are studied from a biological, physical, and geological perspective. Course work is designed to provide first-hand experience in problem-solving by the utilization of the scientific method. Activities and demonstrations which require active student participation will be the primary approach to the development of the topics selected. (Prerequisites SC 10 and SC 12.) Spring, Odd Years

Sc 198. Guided Research/Advanced Study in Science (1-3)
This is an independent research project undertaken by the student in consultation with the division chair. (Prerequisite: SC 10 or SC 12) TBA

Bo 125. Botany (4)
This course studies plant anatomy, physiology, morphology, and taxonomy. Three lectures and one laboratory per week. (Prerequisite: SC 12.) Odd Years

Zo 116. Human Genetics (3)
This is a brief review of the important aspects of human and molecular genetics. It presents the concepts of inheritance based on human examples and covers the molecular nature of many genetic diseases emphasizing basic biochemical mechanisms. There is also a presentation of genetic screening and counseling, genetic therapy, and bioethics. Lecture and Laboratory. (Prerequisite: SC 12) Even Years

Zo 120. Zoology (3)
This course studies the anatomy, morphology, taxonomy, and physiology of the vertebrates. Laboratory microscopic studies and dissections of vertebrates required. Lecture and laboratory (Prerequisite: SC 12.) Even Years

Zo 130. Human Anatomy and Physiology (4)
A detailed study of the structure and function of the human body. Lecture will emphasize the various organ systems and their interrelationships; for example, physical and chemical properties of muscles, nerve conduction, respiration and excretion. Laboratories include vertebrate dissection and physical-chemical physiology. Three lectures and one laboratory per week. (Prerequisite: SC 12.) Odd Years

Political Science

PS 1A. American Government (3)
An introduction to the principles and problems of government in the United States, including study of the Constitution, the organization and functions of the federal government, public finance, and state and local government. Yearly

PS 1B. Introduction to Political Science (3)
The definition, scope, and methods of political science as applied to the analysis of contemporary government and political processes. Alternate Years
PS 155. History of Political Thought (3)
A study of the doctrines and influence of the principal political philosophies in the 20th century, including communism, fascism, socialism, and liberal democracy. (See HI 155.) Alternate Years

Sociology

So 1. Sociology (3)
An introduction to the study of human behavior in social groups and the basic concepts that are used in sociology. Deals with social groups, cultural organization, race, and social institutions. Yearly

So 10. Social Problems (3)
This course centers on an application of sociological principles to the identification and analysis of selected social problems in contemporary American society, including the problems of education, the family, crime and delinquency, poverty, minority groups, social and personal pathology, and the problems of aging and retirement. Alternate Years

So 20. Marriage and Family (3)
This course is designed to develop knowledge and understanding of the relationships of friendship and affection, dating, courtship, engagement, and marriage. Includes a study of mate selection, planning for the wedding, factors in marital adjustment, family budgeting, and the assumption of parental responsibilities. Alternate Years

So 100. Social Science Research (3)
A survey of design, preparation and execution of social science research to develop research methods applicable to the understanding of social science theories. TBA

So 140. Women in Society (3)
Consideration of women in contemporary American society with respect to self-discovery, social effectiveness, and spiritual development. (For women only. Prerequisites: So 1 and upper division standing.) Yearly

So 157. Urban Sociology (3)
The nature, causes, and consequences of industrial urbanization, with emphasis on social problems and urban planning in the metropolitan complexes of the United States. Alternate Years

So 163. Small Group Theory (3)
The study of sociological theories of interaction in small groups, including the family. The course includes study of the processes of group dynamics, communication, conflict resolution, role playing, and family relations. Alternate Years

So 198. Guided Research (1-3)
The student will do independently guided research in areas of interest under supervision of an adviser. TBA
